10/29 - 10/31 Parker T.

Classroom News

What an exciting beginning of the school year this has been. I'm so happy to inform you that your kiddos are doing great! We have been very busy making new friends, learning classroom rules, using school supplies, tracing, cutting gluing, coloring, painting sharing and of course singing and dancing. We are also learning ABC's , 123's and Colors in various ways and using different manipulatives.

Please keep practice cutting at home since this is a very important fine motor skill that will help them with their writing. Also, remind them about coughing and sneezing into their elbows and washing hands after using the bathroom to prevent germs from spreading.
