

The Society

The New York State Thoracic Society (NYSTS) is the State Chapter of the American Thoracic Society. It is the medical advisory body to the American Lung Association of New York. Formerly called the New York State Trudeau Society, NYSTS is named after Edward Livingston Trudeau (1845-1915), for whom a lectureship at this annual meeting is named. The first American investigator to culture the tubercle bacillus, the causative agent in tuberculosis, he founded the Adirondack Cottage Sanitarium at Saranac Lake, NY in 1884 based on his own open air cure of tuberculosis. The world famous Trudeau Research Institute at Saranac Lake retains his name.

**Continuing Medical Education Accreditation & Designation Statements
for Jointly Sponsored Activities**

This activity has been planned and implemented in accordance with the *Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME)* through the joint sponsorship of the American Thoracic Society and the American Lung Association of New York/New York State Thoracic Society. The American Thoracic Society is accredited by the ACCME to provide continuing medical education for physicians. The American Thoracic Society designates this educational activity for a maximum of **10 AMA PRA Category 1 Credits™**. Physicians should claim only those credits commensurate with the extent of their participation in the activity.

Objectives

The Assembly has been designed as an educational opportunity for the pulmonary, critical care community, including respiratory therapy, nursing, and those in training. The following learning objectives have been established:

- To increase knowledge on these medical issues for attendees of this Assembly.
- To encourage the transfer of that knowledge to their pulmonary/critical care practices.
- To promote enhanced pulmonary care through the hands-on use of those skills in their practices.
- The above to result in improved outcomes in the treatment of lung disease and the promotion of lung health in New York State.
