According to McKinsey, data-driven organizations are 23x more likely to acquire customers, 6x as likely to retain customers and 19x as likely to be profitable as a result.¹

Enterprises that stand-out from the competition have focused on removing the distance between data, applications, partners and users; resulting in increased performance and customer satisfaction.

With CoreSite, as your partner, your customers have access to the best environment they need to transform and optimize for digital business with the components for the most agile, dynamic infrastructure that can be adapted as their business requirements change.

¹McKinsey stats have been sourced from Forbes.com
**HIGH PERFORMANCE**

- CoreSite interconnection services deliver real-time B2B communications and sub-millisecond edge connectivity to leading public cloud providers
- **Achieve 44% faster communications to cloud availability zones** compared to public Internet using high-speed fiber and virtual interconnects
- Proximity to cloud availability zones from CoreSite data centers reduces the distance between users, applications, and data platforms to deliver high-performance customer experiences and sustainable competitive advantages
- The cloud and service providers in CoreSite campuses enable rapid and flexible global reach

**ASSURANCE**

- Facilities designed for maximum uptime to house your most critical workloads
- Deploy highly available multi-region cloud architectures to achieve minimum configuration requirements for provider SLAs
- Achieve your organization’s SLAs with easy and cost-effective implementation of high-availability architectures
- 24/7/365 highly skilled on-site operations professionals
- Depend on CoreSite’s 100% uptime SLA with a record of eight-9s uptime in 2019
- CoreSite owns and operates nearly 90% of our data center portfolio, providing greater predictability and peace of mind for our customers

**DATA CENTERS ARE THE FOUNDATION FOR YOUR CUSTOMERS’ DIGITAL STRATEGY.**

Are you ready to take advantage of CoreSite’s network and cloud dense, hyper-connected platform?

2Calculations based on speed tests conducted by CoreSite of direct interconnection product vs. the public Internet and may not accurately reflect your performance improvements. These tests have not been independently verified by any third-party and should not be deemed to be an assurance or guarantee as to expected performance.
