

CORESITE

Future-Proof

YOUR DIGITAL BUSINESS

Today's increasingly complex digital demands require businesses to prioritize infrastructure needs. The ability to move quickly, enable collaboration, ensure business continuity and security and meet customer needs is critical to beat the competition. Embracing a strategy shift to deploy infrastructure in a hybrid IT environment has proven to be a highly effective solution to achieve this business agility. In fact, Gartner® predicts by 2025, 85% of infrastructure strategies will integrate on-premises, colocation, cloud and edge delivery options.*

WHERE YOU PUT YOUR INFRASTRUCTURE MATTERS

CoreSite serves as the ideal interconnection hub to build and deploy a hybrid IT strategy to monetize and future-proof your business. Whether you need to digitize customer experience, optimize performance or scale on-demand, we deliver a purpose-built and highly interconnected ecosystem that holistically ensures you are ready for what's next.

Our interoperable platform centralizes direct access to your partners in your digital workflow. We are the IT nexus where top cloud providers, service integrators, networks and fellow enterprises interoperate and collaborate to accelerate business initiatives. When you are looking for a cloud assessment, access or services – or data storage and analytics, management tools, colocation and security services or real-time collaboration – look to CoreSite to provide the native digital supply chain needed to ensure your business thrives.

THE OUTCOMES

MONETIZE YOUR BUSINESS

Our Open Cloud Exchange® (OCX) enables collaboration with all the partners in a business' digital workflow. Our proprietary platform provides direct, secure and virtual connections to anyone on the exchange – enabling businesses to quickly turn up connections with their partners to transfer content and collaborate in real-time. The OCX empowers our customers to complete unique production projects and achieve a faster time to market.

MEET STRINGENT COMPLIANCE REGULATIONS

Many businesses strive to provide excellent customer experience but are challenged by compliance regulations designed to protect customer data. CoreSite's data centers satisfy all of the stringent compliance regulations and provide the multi-layered security features, 100% uptime and infrastructure resilience needed to support an excellent customer experience.

FUTURE-PROOF YOUR DIGITAL BUSINESS

Enterprises in myriad industries deploy multi-cloud and hybrid IT strategies at CoreSite to achieve better performance. Our agnostic approach and strategic partnerships enable customers to quickly connect to their preferred cloud providers to maximize performance and take advantage of the latest cloud application or workload.

“When we joined CoreSite, everyone laid down the red carpet in the pre-sales stage—and the red carpet stayed down since we have become customers. Our experience continues to be phenomenal.”
