

VMG

4G LoRa Sensors

Weight	½ lb (8 oz)
Power supply	9V battery lithium
Connectivity	Long Range Radio Frequency 915 MHz
Operating Temp.	-40°C to +85° C
Range	up-to 1 mile away (line of site)
Ports	3 or 5

- ▶ Waterproof, dustproof enclosure (IP-68)
- ▶ LoRa 900 MHz (Long Range) interface between Sensors and Collectors, over 1-mile line of sight connection
- ▶ Transceivers support multiple I/O ports (3 or 5) for connections to a variety of sensor types
- ▶ Over-The-Air (OTA) configurable, report times / rates, Firmware upgrades, provides flexibility via remote configuration
- ▶ Transceivers powered by 9V Battery, provides 3+ years life
