

INSTRUCTOR II (SUS)

Location: Spirit of St. Louis ATCT (SUS), Chesterfield, Missouri, USA

Job Status: Casual or Part-Time

Shift: Day

Date Posted: 04/05/2024

Position Summary:

Adacel Technical Services, Inc. (ATS) provides a complete set of on-site training services for aerospace and defense markets. Services include instructional delivery, simulation operation and maintenance, instructional system design, and training support.

The Instructor II (Field) works in an office environment with minimal direct ATS supervision and works closely with Federal Aviation Administration (FAA) personnel.

Essential Duties and Responsibilities:

- Conducts and administers various classroom courses conducted at FAA's Field sites.
- Teaches multiple courses and conducts simulation training.
- Participates in Instructional Systems Design projects, to include the development, revision, and maintenance of ATC Training Courses, and Scenario Development.

Qualifications:

Required

- 5 years of Certified Professional Controller (CPC) experience controlling live traffic OR recent experience as a contract Instructor at an FAA facility.
- Recent experience must have been at the same type and same level of Air Traffic Control (ATC) facility [e.g., Air Route Traffic Control Center (ARTCC), Airport Traffic Control Tower (ATCT), Terminal Radar Approach Control (TRACON)], requesting training support.
- Must be able to obtain ATC Simulator Certification for facility requesting training support.
- Must be able to pass Government background investigation.
- Must be able to obtain a Public Trust clearance.

About Adacel:

Established in 1987, Adacel is a publicly traded company listed on the ASX. The company plays a significant role in global air space safety. A world-leader in its industry, Adacel applies cutting-edge technologies to develop advanced air traffic control simulation and training systems and state-of-the art air traffic management solutions. Adacel's customers include international air navigation service providers (ANSPs), military, defense & security organizations, universities, and airport authorities. More than 21% of the world's airspace is managed with Adacel's Aurora ATM software. MaxSim Tower Simulator and Training systems lead the industry with the highest number of installations worldwide. MaxSim is also the first ATC simulation system in the world to deliver Virtual and Mixed Reality training capabilities into the classroom. Adacel's latest flagship system, REVAL, a digital Air Traffic Control (ATC) tower system delivers a wide spectrum of digital tower operational solutions, from consulting services to system design, development, deployment, and support.
