ASX ANNOUNCEMENT

24 January 2007

Company Announcements Office
Australian Stock Exchange

The following announcement is issued by the company for release to the market.

A\$5.25 MILLION SIMULATOR CONTRACT FROM AIRSERVICES AUSTRALIA

Adacel has been awarded a A\$5.25 million contract by Airservices Australia to provide and support control tower simulators for training Australia's next generation of air traffic controllers.

Under the contract, Adacel will provide a MaxSim tower simulator with a 360 degree field of view and three MiniMax 240 degree systems. The contract also includes warranty and support for four years.

Additional information is included in the attached News Release.

ADACEL AWARDED A\$5.25 MILLION AIRSERVICES TOWER SIMULATOR CONTRACT

Adacel has been awarded a A\$5.25 million contract by Airservices Australia to provide and support control tower simulators for training Australia's next generation of air traffic controllers.

These simulators will be placed at the Airservices College at Tullamarine and provide more efficient and effective training of tower controllers through the use of the full immersion simulator and the mini simulators.

Under the contract, Adacel will provide a MaxSim tower simulator with a 360 degree field of view and three MiniMax 240 degree systems. The contract also includes warranty and support for four years.

Adacel's simulation systems will permit the development of higher skill levels at an earlier stage in controller training through concentrated coverage of required capabilities in a non-operational environment, reducing the time required in operational centres.

Airservices Australia will also use the capabilities of a Control Tower Simulator to analyse and evaluate operational/procedures modelling, airfield modelling, tower configuration modelling, aerodrome emergencies, and incident investigations.

About Adacel

Adacel Technologies Limited is a leading developer of advanced simulation and control systems for aviation and defence. Since its establishment in 1987, Adacel has built an international reputation for its products and services through a commitment to technological leadership and customer support. From advanced simulation to air traffic management and voice recognition systems, training and professional services, Adacel's products can be found in more than 30 countries. Adacel is listed on the ASX (Code: ADA) and can be found on the Web at www.adacel.com.
