## **ASX ANNOUNCEMENT**

13 February 2007

Company Announcements Office  
Australian Stock Exchange

The following announcement is issued by the company for release to the market.

### **A\$4.5 MILLION US AIR FORCE SUPPORT CONTRACT EXTENSION**

Adacel has received a further one year extension to its Tower Simulator support contract with the US Air Force, which will now also include support for Adacel tower simulators operated by the Federal Aviation Administration and US Marine Corps.

The contract option under the USAF Training Systems Support Center/ Contractor Logistics Support (TSSC/CLS) contract is valued at A\$4.5 million (US\$3.5 million) and is for the fifth year of support for what is projected to be a 10-year Tower Simulator System life cycle.

Additional information is included in the attached News Release.

## **A\$4.5 MILLION US AIR FORCE SUPPORT CONTRACT EXTENSION**

Adacel has received a further one year extension to its Tower Simulator support contract with the US Air Force, which will now also include support for Adacel tower simulators operated by the Federal Aviation Administration and US Marine Corps.

The contract option under the USAF Training Systems Support Center/ Contractor Logistics Support (TSSC/CLS) contract is valued at A\$4.5 million (US\$3.5 million) and is for the fifth year of support for what is projected to be a 10-year Tower Simulator System life cycle.

Under this contract option Adacel will maintain responsibility for the maintenance and support of over 100 USAF tower simulators located at sites worldwide as well as FAA and USMC tower simulators. Services will include: configuration management and documentation, maintenance and update of software baselines, 24/7 on-call support, system repairs, spares management and reporting.

"We have worked with the US Air Force, the FAA and the Marine Corps to ensure that their systems are continuously and seamlessly supported, and this contract extension demonstrates the confidence they have in Adacel," said Fred Sheldon, Adacel CEO North America. "With Adacel, our clients get a comprehensive long term solution."

As part of the TSSC/CLS, Adacel will also provide a web-based Integrated Data Environment. This environment provides Adacel and the customer direct access to all support related documentation as well as contract plans, technical documents and performance metrics.

Adacel is the leading provider of air traffic control training simulators worldwide. Adacel's radar and visual control tower training products are used by: NASA, the U.S. Air Force, Army and Marine Corps, the Federal Aviation Administration as well as over thirty air navigation service providers around the world.
