Adacel Celebrates 35-year Anniversary

Montreal, Quebec, Canada, 17 January 2022–In 2022, Adacel Technologies Limited (**Adacel**), an industry leader in advanced air traffic management solutions and simulation and training systems, will mark 35 years since its inception. To commemorate this milestone, the company is launching a yearlong campaign to celebrate its customers, employees, and heritage. Established in 1987, Adacel grew from a three-employee endeavor to an internationally recognized brand and trusted developer of air traffic control solutions.

"It took unwavering dedication and hard work to achieve this level of success," shares Daniel Verret, Adacel's CEO. "Looking ahead, our vision is to be the foremost authority and trusted partner for the global air traffic community. And I would like to take this opportunity to thank our customers, team members, and business partners throughout the world who have been part of our incredible journey: Thank you for your contributions, collaboration, trust, and partnership – you've made our success possible," continues Mr. Verret.

Considering the restrictions caused by the global pandemic, throughout the year Adacel will launch multiple remote events to celebrate the 35-year milestone, and the company will publish anniversary celebration updates on its social media channels.
