

Teleflex is a leading global provider of specialty medical devices used for diagnostic and therapeutic procedures in critical care, urology and surgery.

"Teleflex is a global provider of medical technologies designed to improve the health and quality of people's lives. We apply purpose driven innovation – a relentless pursuit of identifying unmet clinical needs – to benefit patients and healthcare providers.

Our portfolio is diverse, with solutions in the fields of vascular and interventional access, surgical, anesthesia, cardiac care, urology, emergency medicine and respiratory care. Teleflex employees worldwide are united in the understanding that what we do every day makes a difference."

For nearly 50 years cardiac care products and technologies from Teleflex have been a trusted partner for cardiac surgeons, perfusionists and interventional cardiologists.

Our broad portfolio, including Arrow Products, incorporates both technologically-advanced intra-aortic balloon pumps (IABPs) and catheters for critically-ill cardiac patients plus a full range of diagnostic cardiac catheters to support the monitoring and treatment of cardiac patients.
