EVOLUTIONIZER
ENTERPRISE STRATEGY SUITE

Drive Strategy & Execution across the Enterprise

Create knowledge and a shared vision.
Focus on strategic outcomes.

Stay ahead.

Be prepared for the unknown

External environments change more rapidly and unpredictably. What worked yesterday won't work tomorrow. Corporate leaders need to prepare their organization to identify change and adapt swiftly, while keeping people focused on a common strategic perspective.

Introducing the Enterprise Strategy Suite

Evolutionizer combines world-class cloud strategy software with top-notch expert knowledge and services, ensuring that companies understand their options thorougly, set the right goals, and execute on them in the most effective and efficient way.

ENTERPRISE STRATEGY SUITE

STRATEGY DEVELOPMENT

Continuous strategy development to become adaptive and aligned

Develop strategy and ESG with direct participation of market segments and functions through a digitized process. Facilitate organization-wide alignment with the help of interlinked processes.

PREDICTIVE BOARDROOM

Optimize corporate strategic performance

Actively monitor the strategic execution gap, evaluate strategy portfolio options and disruptive scenarios to decide on a future-proof strategy.

PURPOSE-DRIVEN STRATEGY

Anchor strategic focus and accelerate change

Develop strategy with a clear focus on the objectives (OKR, BSC, etc.) and initiatives. Create the right connections to financial planning and execution to become more adaptive and robust.

STRATEGIC PROGRAM MANAGEMENT

Translate strategic targets into results

Agile management of complex multi-program constellations based on a highly-flexible end-to-end data model based on preconfigured, best practice workflows including boardroom-ready reports.

The digital backbone for the future of your business

EVOLUTIONIZER

Continuous strategy development to become adaptive and aligned

Strategy Development helps to develop strategy in a guided process and to align it across the organization.

This enables every unit or team manager to develop strategic plans, that automatically consider all interrelationships and dependencies between units, using a custom-tailored methodology.

Embedded Machine Learning capabilities help consolidate strategic information over the entire organization.

EVOLUTIONIZER

STRATEGY PROCESS

# Guide every unit or team through a methodologically structured process

Establish a custom-tailored strategy process based on the combination and analysis of qualitative and quantitative strategic information. Embedded methodology and knowledge support also encourage strategic thinking throughout the organization.

ORGANIZATIONAL ALIGNMENT

Align strategic plans enterprise-wide

Automated handovers between organizational units ensure consistent plans including all dependencies and interrelationships. In addition, machine learning helps consolidate the amount of qualitative and quantitative strategic information.

EVOLUTIONIZER
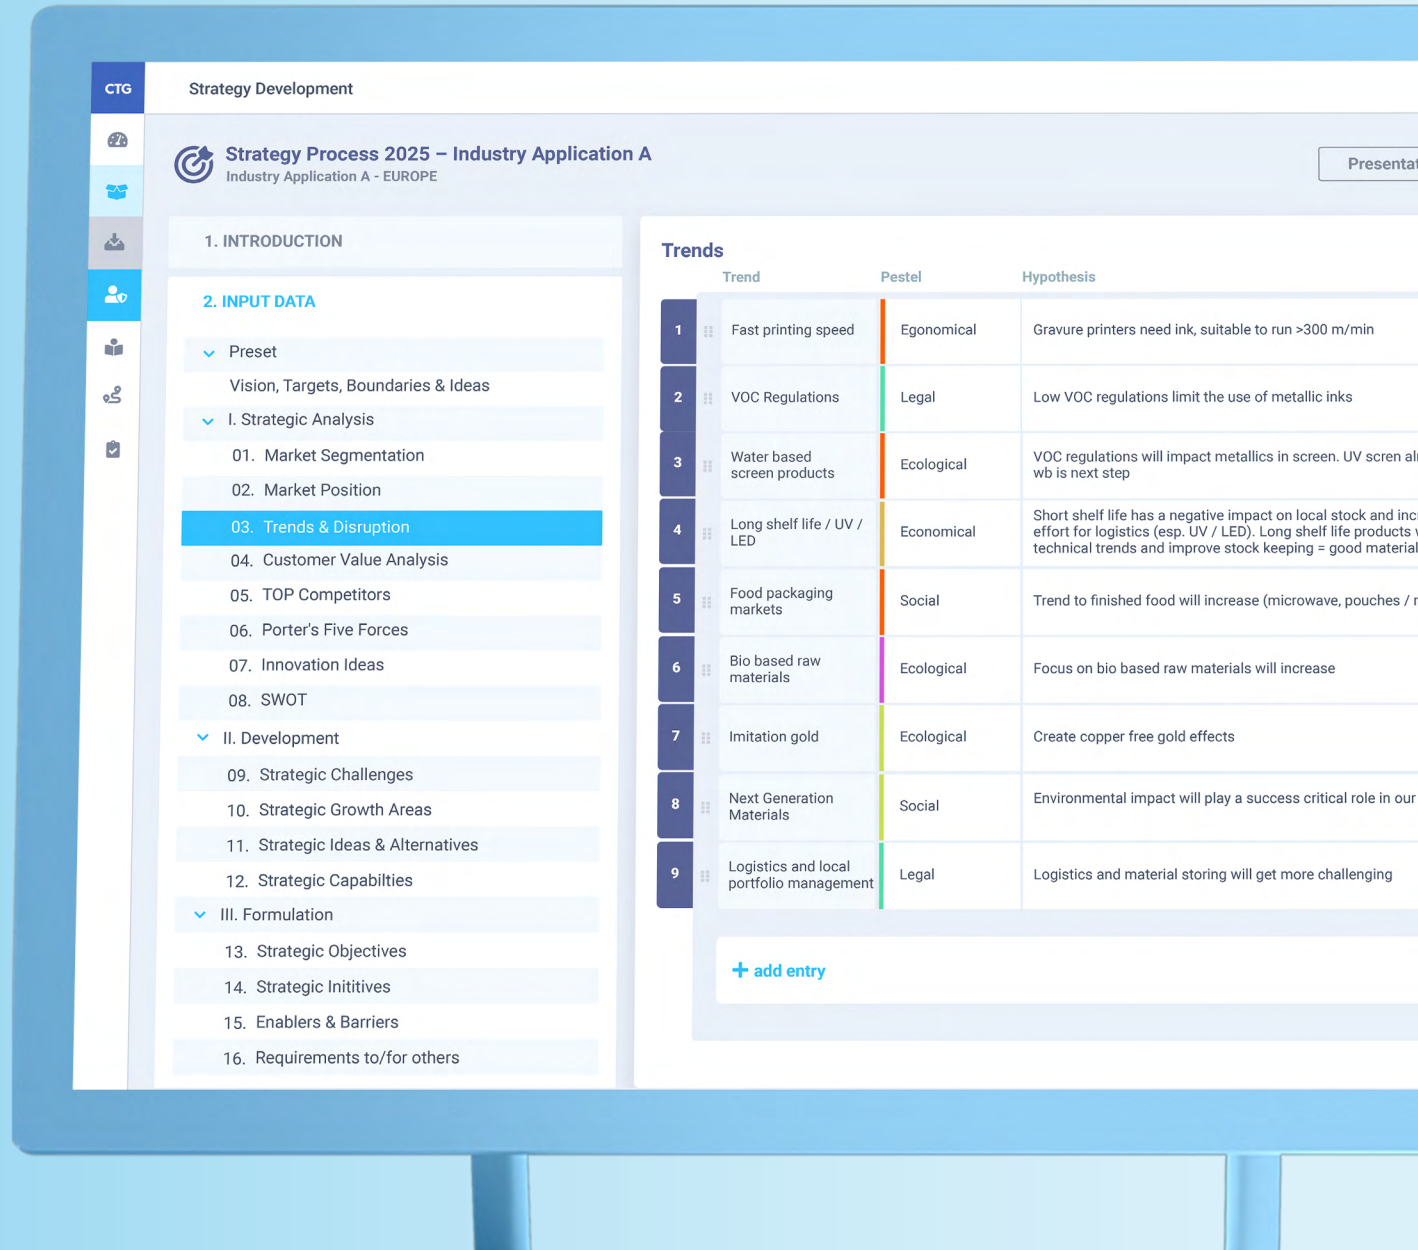

Optimize corporate strategic performance

Predictive Boardroom shows you the actual state of your target achievement at any time and helps to dynamically monitor the strategic execution gap.

Choose where best to focus the organization's limited resources in order to meet strategic objectives. Evaluate strategy portfolio options and disruptive scenarios to decide on a future-proof strategy.

EVOLUTIONIZER

PREDICTIVE BOARDROOM

MULTI-PROGRAM METRICS

Connect your strategy to outcomes in a multi-program view

Integrate all ongoing programs and the operational baseline into one consistent financial structure to clearly visualize and monitor the gap between corporate targets and current forecasts.

STRATEGY DECISION SUPPORT

Model alternative strategic plans and test multiple scenarios

Combine, bundle and prioritize different strategy options to achieve maximum strategic impact. Using systematic scenario analysis, you will succeed in pivoting in an agile and resilient manner.

EVOLUTIONIZER

STRATEGIC PROGRAM MANAGEMENT

Translate strategic targets into results

Strategic Program Management supports agile management of complex multi-program constellations based on best practice templates built on a highly flexible end-to-end data model.

Create a single point of truth for the planning, execution and reporting of your strategic programs. Recognize need for adjustment early and shorten the braking distance.

EVOLUTIONIZER

PROGRAM PLANNING & EXECUTION

Achieve targets with a dynamic top-down and bottom-up approach

Break high-level program goals down into specific saving activities until the targets are fulfilled with a degree of confidence logic. Dynamic monitoring of execution progress helps you minimize variances. In addition, best practice process and content templates improve speed and consistency.

PROGRAM TRANSPARENCY

Create transparency for all project members and generate stakeholder-specific reportings

Establish dynamic and role-specific reporting of plan/actual comparison, degree of implementation and program risks. Generate custom-configured automated upload reports for key stakeholders at the click of a button.

EVOLUTIONIZER

Anchor strategic focus and accelerate change

Develop your strategy with a clear focus on the objectives and initiatives of the organization.

Create the right connections to financial planning and execution to become more adaptive and robust.

EVOLUTIONIZER

PURPOSE-DRIVEN
STRATEGY

STRATEGY DEVELOPMENT

A clear path towards strategic results for all divisions

A thouroughly aligned strategy system that enables all units to develop their strategy independently, in line with each other and with the corporate objectives.

CONNECT FINANCIAL PLANNING AND EXECUTION

Plan consistently from strategic and financial planning perspective

For the first time, strategic priorities (market, product, initiatives) are comprehensibly linked to financial planning and ongoing execution.
