## the Photo Summit

## DIGITAL STILL FILES TO DVD or USB FLASH DRIVE SLIDE SHOW

Original material is formatted to fill a (16x9) TV screen top  
to bottom, not necessarily side to side. The photo's aspect  
ratio is preserved

Set-up Fee	\$60.00
Titles	\$5.00 each
Instrumental Music (from our music library)	\$15.00

Up to 900 digital images (.jpg or .bmp) per DVD, but best  
quality has a limit of 500 images.

Images change at 5 second intervals.

### NOTES

**The above prices do not include HDD or  
USB Flash Drive.**

**USB flash drives, hard drives and DVD reader/writers  
are available in our store.**

## NON TAPE VIDEO SOURCES CONVERTING / COMBINING TO .MP4 FILE

This includes video from camcorders, still cameras, phones,  
tablets, flash drives, external hard drives, Dropbox, e-mail,  
or cloud sources linked to or provided by the customer  
when converting to .mp4 files. Vertical video files are cor-  
rected ONLY if the entire clip was shot that way.

up to 1 hour \$70.00

### NOTE:

.MP4 files are editable in iMovie on most MAC computers.  
.MP4 files are editable in Windows MovieMaker on PCs  
running Windows 7, 8 or 10. Older versions of Windows  
require additional software.

## VIDEO TAPE TO TAPE DUPLICATIONS

Transfers are from non-copyrighted, non-commercial origi-  
nal tape recordings only. All are copied to High Grade T120  
VHS cassette tape at SP speed.

Original VHS, VHS-C, Mini DV, 8mm, Hi8 or Digital 8	
first copy	\$29.00
additional copies	\$24.00

Add \$10.00 to any copy made to a tape size other than VHS  
T120.

## AUDIO TAPE TRANSFERS TO CD

CD transfers are available from audio cassettes, micro-  
cassettes or open reel-to-reel tape. Only non-copyrighted,  
non-commercial audio will be transferred. Each tape side is  
transferred as a single track on the CD. Audio tape can be  
transferred to .mp3 files instead at the same price.

each tape (up to 60 minutes)	\$30.00
tapes longer than 60 minutes require additional CDs @	\$ 30.00 per CD
Individual track breaks	\$ 2.00 each
Additional copies at time of transfer	\$ 10.00 each

## VIDEOTAPE REPAIR

Single splice	\$20.00
Splice and new cassette	\$30.00

We strongly recommend making a copy or transfer of any  
repaired tape because VCR/camcorder heads may be dam-  
aged by playing a spliced tape. We will not accept respon-  
sibility for damage done to any VCR/camcorder head as a  
result of a tape splice/repair.

## PRINTS FROM VIDEO SOURCE

Prints from any still frame from your videotape or DVD. Vid-  
eo images (typically lower resolution than still camera files)  
are enhanced and sharpened to yield the best possible re-  
sult. Includes a CD of the captured .jpg file.

up to 5X7	\$15.00
8X10	\$20.00

**We respect and adhere to copyright laws.**

**MOTION PICTURE FILMS TO PLAYABLE DVD OR  
 USB FLASH DRIVE / PORTABLE HARD DRIVE**

State of the art transfers from movie film directly to DVD. Our 'cold light' capture process does not project your film in the conventional sense, and yields superior results. Your movie reels will be transferred in the order you present them. All films are cleaned and lubricated, and small reels are spliced onto larger reels. Any notes and individual boxes are returned. All transfers are done with the least digital compression (60 minutes per DVD) for the best results.

**8mm AND SUPER 8 MOVIES**

8mm movie film was made as early as 1932, and Super 8 film was introduced in 1965. Only Super 8 was available with sound. Small 3" diameter reels run approximately 3-4 minutes, so a one-hour DVD would use 16-18 reels.

up to 30 minutes	\$120.00
up to 60 minutes	\$160.00

Titles can be added at \$5.00 per title.

**16mm MOVIES**

16mm film was introduced in 1923 as an amateur film format, but was also used extensively for commercial and educational purposes. 16mm uses twice the footage as 8mm for the same projection time.

up to 30 minutes	\$240.00
up to 60 minutes	\$320.00

**STANDARD TRANSFERS TO .MP4 FILES AND PLAYABLE  
 DVD COMBO**

Add \$20.00 to the above prices to receive both a playable DVD and .MP4 files

**NOTES**

**The above prices do not include HDD or USB  
 Flash Drive.**

**VIDEOTAPE TO PLAYABLE DVD - BEST QUALITY**

Our premium tape to DVD transfer process gives you the best on-screen image quality. There is a one-hour time limit per DVD with less signal compression. We can combine tapes to get to the one-hour limit if your tapes are not full, and/or sequence tapes in order for best continuity. We edit out blank areas, blue screen, TV shows, and lens-cap-on segments. There is a menu function with video chapter previews, and packaging which shows thumbnails of the various scenes. These are \$60 for up to 60 minutes and \$45 up to 30 minutes.

Additional copies made at the same time are \$20.

VHS, VHS-C, 8mm, Hi8, Digital 8, Mini DV, Beta and Super Beta tapes can be transferred. Add \$20.00 for foreign SE-CAM or PAL as well as Beta or Super Beta.

**CAMCORDER HARD DRIVE / BUILT-IN MEMORY  
 VIDEO FILES TO PLAYABLE DVD  
 (NO EDITING)**

High Definition files to standard DVD (playable on Blu-Ray and DVD players)	
up to 30 minutes	\$50.00
up to 60 minutes	\$70.00

Standard Definition files to DVD	
up to 30 minutes	\$45.00
up to 60 minutes	\$60.00

**CAMCORDER OR STILL CAMERA SD CARD VIDEO FILES  
 TO PLAYABLE DVD  
 (NO EDITING)**

High Definition files to standard DVD (playable on Blu-Ray and DVD players)	
up to 30 minutes	\$50.00
up to 60 minutes	\$70.00

Standard Definition files to DVD	
up to 30 minutes	\$45.00
up to 60 minutes	\$60.00

**HD video can be transferred to Blu-Ray at additional cost.**

**• VIDEO SERVICES •**

**STANDARD VIDEOTAPE TRANSFERS TO PLAYABLE DVD**

Our Standard DVD transfers are basic copies. The transfer is done at a high compression rate, allowing 2 hours of recording time. This service is for one tape to one DVD only. There is no editing done and we cannot combine tapes. Blank spaces are trimmed at the beginning and end. The price per tape is \$40.00 for up to 2 hours. Additional copies made at the same time are \$20.00.

**STANDARD TRANSFERS TO USB FLASH DRIVE OR  
 PORTABLE HARD DRIVE**

Videotape transfers to .MP4 files will play on both Mac or PC computers and can be edited. They will also play on many smart TVs. Blank spaces are trimmed at the beginning and end. We can use your drive or sell you a drive to meet your needs. We will format it for PC or MAC if requested. The price per tape is \$40.00 for up to 2 hours.

**STANDARD TRANSFERS TO .MP4 FILES AND PLAYABLE  
 DVD COMBO**

When ordering both standard services at the same time, the price is \$75.00

VHS, VHS-C, 8mm, Hi8, Digital 8, Mini DV, Beta and Super Beta tapes can be transferred. Add \$20.00 for foreign SE-CAM or PAL as well as Beta or Super Beta.

**NOTES**

**The above prices do not include HDD or USB  
 Flash Drive. Blank tapes are subject to a  
 \$10.00 Preview Charge.**
