**Railway Contractors and Suppliers**

## ***Building a Safer and Stronger Railway Construction Industry Together***

The National Railroad Construction and Maintenance Association – the “NRC” – is a U.S. trade association that advances the mutual interests of railway contractors and suppliers who construct, maintain and supply railroads and rail-transit lines.

Our more than 2,500 NRC members and 400 member companies work in all 50 states and perform more than \$10 billion of work annually to keep the U.S. economy moving ahead. We are united in our mission to build a safer and stronger railway construction and maintenance industry together.

**National Railroad Construction and Maintenance Association, Inc.**

# JOIN THE NRC

## Advance Your Career, Your Business and Your Industry

NRC members benefit from a full range of valuable services that advance their careers, their businesses and the railway construction and maintenance industry.

### ADVOCACY

The NRC is on the front lines representing railway contractors and suppliers before Congress and with federal agencies:

- Work with lawmakers and regulators to ensure railway contractors and suppliers are protected and deemed “critical infrastructure workers” in light of COVID-19.
- Provide updates on pending and passed federal transportation infrastructure policies, including spending and regulatory issues.
- Sponsor lobbying events, such as **Railroad Day on Capitol Hill**, with access to legislators and policy to promote a strong industry.
- Coordinate and host NRC member company **grassroots events** with elected officials.

### SAFETY

The NRC develops and supports **resources** that foster a safe railway construction work environment:

- Convenient online access via the member-only portal on our website to safety training materials:
  - NRC Safety Videos
  - Toolbox Talks
  - Safety Manuals
- **FRA 49 CFR Part 214** Roadway Worker Protection (RWP) training resources.
- **FRA 49 CFR Part 243** Minimum Training Standards templates and training materials.
- Participate in the annual Railroad Contractor of the Year Safety Awards competition.

### MARKET INSIGHTS

The NRC provides access to current **data on rail industry markets and trends** that helps members stay up to date and make sound, informed business decisions.

- Attend the **NRC Annual Conference** and access railway presentations on transportation infrastructure spending and regulatory changes.
- Website links to relevant information in trade publications and to other industry associations and resources.

### EVENTS & PROGRAMS

The NRC provides opportunities to connect with and learn from other professionals and to support higher education:

- Discounted fees to attend the annual **NRC Conference and Exhibition**.
- Listings in the online **NRC Membership Directory**, an important resource for Class I, short line, passenger, and industrial rail customers.
- Access as a buyer and/or seller to the exclusive **NRC Annual Railroad Equipment Auction**.
- Webinars that provide timely and practical insights into safety, operations, and market opportunities.
- NRC **Scholarship Program**, open to college-age children and grandchildren of employees of NRC member companies.
- **Education Grant Program**, open to U.S. colleges, universities or technical schools with a railway construction, railway engineering or construction management program.

### NRC Committees Help Get the Job Done

**Apply** to be on an NRC Committee. Connect with other industry professionals while contributing your time and expertise.
