

FOR IMMEDIATE RELEASE -- (Tannersville, NY - October 1, 2020)

Edward Ullmann, President and CEO of Wellness Rx, LLC located at 5980 Main Street in Tannersville, NY announced today the launch of the “Wellness Rx Online Store”, accessed through the Pharmacy’s website <https://www.wellnessrxllc.com/store>. The new store will be live on October 1st, 2020.

“I am very excited about this new online launch and our ability to service more patients and customers, locally and around the country,” said Ullmann. “As a Pharmacist and a Scientist, I have worked with our customers to identify certain needs, and blend safe, therapeutic and affordable natural remedies that will help them with their pain management or other ailments. For the past five years, our unique product line has only been available for purchase in our Tannersville Pharmacy location or by phone order, and now it will be available online. Our natural product line gives our valued customers treatment options when it comes to managing their own healthcare or the wellness of their loved ones,” he continued.

Wellness Rx LLC online store will offer many of the pharmacy’s top selling products and will initially include close to 20 unique Wellness Rx Natural Products. We will continue to create more of our own line, and also add other products to the online store as we grow. All of the Wellness Rx products are created in-house by The Wellness Rx Team. The new online store is designed specifically for ease of use by customers of every age.

Wellness Rx will continue to identify and expand their product line in response to the needs of its valuable patients and customers. Each product has been field tested and reviewed before being considered as a wellness remedy available in the store, or online.

Wellness Rx’s new product line will focus on helping those with chronic pain, stress and anxiety, skin irritations, allergies, insect repellent and bite care, sinus conditions, wound care, foot and leg issues, ear-nose-throat conditions and increasing the strength of our overall immune systems. This is so very important during these challenging times of the Covid-19 virus.

“As a board member of the President’s Advisory Council at Albany College of Pharmacy and Health Sciences,” Ullmann stated, “we at Wellness Rx are preparing current and future Pharmacists with powerful and proven natural alternatives that will help their valued patients, along with filling their prescriptions in the traditional Pharmacy model.”

Wellness Rx, LLC. originally founded in 2013 in High Falls NY, has experienced steady growth while assisting the MountainTop community and region to reawaken to the potential of their highest authentic wellness, through a blending of western and eastern influences. The company’s mission statement reflects Ullmann’s focus to heal the community citing “Natural World Medicine - Blending Traditional Pharmacy with Natural Medicine.”

Edward Ullmann and his Wellness Rx approach has been warmly embraced by a diverse and varied audience throughout the Catskill Mountain Region for several decades, on and off since the 1970’s. He and his professional Wellness team in Tannersville look forward to serving all who wish to return to their authentic health, by sharing his integrated vision and wellness concepts with them. Ullmann, is an executive manager with a varied background in both private and public sectors of the health care and wellness industries. He has developed more than 30 start-up companies, and for 16 years served as the Founder, Chairman, President, and Chief Executive Officer of a publicly-traded New York based health management company (Wellcare) which developed and managed six operating HMOs.
