

DSH

Down Spout Hanger

Dimensions: 11.5" x 1"

DESCRIPTION

The downspout hanger is used to prevent damage to the de-icing cable as it enters a downspout and to support the de-icing cable once inside of the downspout.

Use one downspout hanger for each de-icing cable entering or exiting the top of the downspout.

Instructions are included with this product.

CONTENTS

- One downspout hanger
- Two plastic clip ties

Downspout hangers are available in both Stainless Steel (DSH) and Copper (DSH-CU) for copper gutters and downspouts.
