## **Children's Science Center Board of Directors Welcomes Corbin Neiberline**

**Northern Virginia, May 2016** – The Children's Science Center Board Chair Tanya La Force announces the appointment of Corbin Neiberline to the board of directors and the non-profit organization's new treasurer.

Neiberline, an Audit Managing Director in KPMG's Washington DC audit practice, has more than 16 years of experience providing financial statement audit and performance improvement advisory services. Neiberline has provided audit services to several large federal departments in accordance with the authoritative guidance promulgated by the Federal Accounting Standards Advisory Board and Governmental Accounting Standards Board. In addition to his audit and advisory work, he serves a team responsible for developing data analytics capabilities within the firm and has spent three years on a global rotational assignment focused on the development of KPMG LLP's global digital auditing techniques and supporting audit methodology.

Neiberline has also volunteered with the Children's Science Center for 6 years, prior to joining the board as its treasurer. "Corbin has been a long time Finance Committee volunteer working closely with current Treasurer, Heather Flanagan. His experience with the Center, managing audits and performance improvement services make him a perfect successor," said La Force. "We are thrilled to have Corbin take our organization to the next level."

In addition to his work with KPMG, Neiberline is a frequent presenter at professional conferences on data analytics and is an instructor for the Association of Government Accountants, professional certification exam. He graduated with a B.S. from the University of Maryland, College Park.

**About the Children's Science Center:**

The Children's Science Center's mission is to instill a love of learning science, technology, engineering, and mathematics (STEM) in all children by providing unique opportunities to explore, create and be inspired. The Children's Science Center Lab is located at Fair Oaks Mall and is Northern Virginia's first interactive museum where children, families and school groups can explore STEM concepts through fun, engaging hands-on exhibits, activities and programs. In addition to the Lab and community programs, the Center is working to fulfill the vision of a full-

scale, world-class children's science museum to be located in Dulles, VA. The Children's Science Center is a 501 (c)(3) non-profit organization. Learn more at [www.childsci.org](http://www.childsci.org).
