FOR IMMEDIATE RELEASE:

ROQOS SPONSORS \$5 FAMILY FUN DAY AT THE CHILDREN'S SCIENCE CENTER LAB

November 7, 2016 (FAIRFAX, V.A.) – The Children's Science Center will be hosting a \$5 Family Fun Day at the Children's Science Center Lab on Friday, November 25, traditionally called, Black Friday. General Admission tickets to visitors for a fun-filled day of family learning and exploration in the Lab will be discounted from the daily admission ticket price of \$12 per person to only \$5 per person. This event, sponsored by Roqos, provides accessibility, promotes family learning, and supports the Center's mission to instill a love of learning STEM in all children by providing unique opportunities to explore, create and be inspired.

"Roqos is an ideal partner with its local roots and focus on using world-class cybersecurity technology to protect families," said Nene Spivy. "The Children's Science Center is grateful to Roqos for their generous support that is instrumental in helping us make the Lab accessible for every family. We are happy to provide this special opportunity for family learning on the day after Thanksgiving, which is a perfect time for families to spend quality time together."

"We are honored to partner with The Children's Science Center Lab as they have a big impact on our local community and the children who will shape our future in technology, business, and everywhere," said Sezen Uysal, founder and CEO of Roqos. "As an engineer, too, STEM is something I consider to be imperative for our growth in the technology sector. We are honored to give back and look forward to seeing what these children create."

Visitors are asked to purchase tickets online in advanced for guaranteed timed entry into the Lab as space for the Family Fun Day is limited. Ticket sales will begin on Monday, November 14, at www.childsci.org. Tickets will be sold on the day of the event if spaces are available.

About the Children's Science Center:

The Children's Science Center Lab is Northern Virginia's first interactive museum where children, families and school groups can explore science, technology, engineering, and mathematics (STEM) concepts through fun, engaging hands-on exhibits, activities and programs. In addition to four experience zones with changing exhibits and activities, the Lab includes a flex-space "Garage" for camps, classes, workshops, parties and mini expositions to showcase regional STEM talent in-action among area youth and families. The Children's Science Center's mission is to instill a love of learning STEM in all children by providing unique opportunities to explore, create and be inspired. The Children's Science Center is a 501 (c)(3) non-profit organization. Learn more at www.childsci.org

About Roqos:

Founded in 2013 and incorporated in Delaware, Roqos, Inc. provides an enterprise-grade home Wi-Fi router service for the residential market with features including cybersecurity, parental control and easy home networking.
