

TRUE VALUE OF A SaaS TERMINAL OPERATING SYSTEM

Software is easy to use and requires little technical knowledge

Significantly improves terminal operations

Saves time and operational costs

Will automate time consuming and mundane tasks

Easy To Use

- Octopi is easy to use and requires little technical knowledge
- Get access to your data easily anywhere on any device
- Our customer support team will be available to help answer any questions you have

Increase Terminal Efficiency

Measure KPIs and increase terminal productivity:

- Automate terminal operations digitally instead of using pen and paper
- Cut down hours of manually documenting barge movements from 2-3 hours to minutes
- Get real-time container visibility within the terminals
- Minimize 1+ hours to just minutes locating a container in the yard

Reduce Operational Costs & Resources

- Increase cash flow by capturing real-time detention and demurrage and automatically invoice customers
- Take hours off of invoicing and days off of billing by connecting physical and financial supply chain in real-time
- Spend 77% less on SaaS subscription fee rather than purchasing a perpetual on-prem software license
