- 1 Distributions are not guaranteed. There is no assurance that distributions will be made or that any particular rate of distribution will be maintained. Distributions shown here include all regular and special distributions for the past two quarters.
- 2 The annualized distribution rate is based on the current offering price of a share class, and is calculated by annualizing the monthly common share distributions from June 2021 to August 2021 of \$0.3275 per share in aggregate, or \$1.31 per share on an annualized basis announced on June 1, 2021.
- 3 Trailing twelve months ended 6/30/21. This is an estimate and subject to change.
- 4 Data in this section is estimated and based on information compiled from Intex Solutions upon portfolio close at end of quarter and are subject to change.
- 5 The number of shares we intend on offering to repurchase in any calendar quarter we expect to be capped at the number of shares we are able to repurchase with the cash retained as a result of issuing shares through our distribution reinvestment plan to those shareholders electing to receive their distributions in the form of additional shares.

Important Risk Factors to Consider

An investment in shares of Priority Income Fund, Inc. (the "Fund") involves substantial risk and may result in the loss of principal invested. This Fund may not be suitable for all investors. You should carefully read the information found in the Fund's prospectus, including the "Risk Factors" section, before deciding to invest in the Fund's shares. These risks include:

- Absence of a public market for these securities
- Limited operating history
- The Adviser's lack of experience managing a registered closed-end fund
- Limited liquidity and lack of transferability
- Reinvestment risk
- Risks related to failing to qualify as a regulated investment company for U.S. federal income tax purposes
- Exposure to leveraged credit risk and interest rate risk
- Risks associated with lending activities, including underlying borrower fraud
- Non-investment grade debt involves a greater risk of default and higher price volatility than investment grade debt.
- Absence of investments identified for acquisition
- Payment of significant fees to the Fund's Adviser and its affiliates
- Potential uncertainty as to the value of the Fund's assets
- Potential conflicts of interest
- Risk that the net offering price per share will not reflect the Fund's net asset value
- Risk that the purchase price paid by you may be higher than a prior purchase price per share and therefore you may receive a smaller number of shares
- Risk of significant leverage within the Fund and collateralized loan obligations ("CLOs")
- Potential interruption and deferral of cash flow
- No assurance that distributions will be made or that any particular rate of distribution will be maintained
- Distributions to stockholders may be funded from expense support payments provided by the Adviser that are subject to repayment to the Adviser if certain conditions are met.
- Distributions may not be based on investment performance and may not continue in the future. The reimbursement of these payments to the Adviser (if any such reimbursements are made) would reduce the future distributions to which investors would otherwise be entitled.
- Lack of diversification in assets of the Fund until significant funds have been raised
- Risk that the Fund's operating results will be affected by economic and regulatory changes that have an adverse impact on the Fund's investments
- Unforeseen increases in operating and capital expenses
- Lack of availability of due diligence information
- Risk related to the fact that the assets of the Fund are intended to be concentrated in senior secured loans and CLOs
- Risk that the Fund will not achieve its investment objectives if it does not raise sufficient capital
- The Fund will not be a diversified investment fund for purposes of the 1940 Act.

These and other risks may impact the Fund's financial condition, operating results, returns to its investors, and ability to make distributions as stated in the Fund's prospectus.
