Glow Wellness LLC

Unlocking the Power of Natural Healing

“**N**atural forces within us are the true healers” - Hippocrates
 Yes, the conventional mindset is to rely on “a pill for all ill” that only manages symptoms rather than addressing the root cause.

Glow Wellness LLC., a health optimization center, believes strongly in the body’s innate ability to heal itself and everything they do focuses on this truth.

With a team of doctors and practitioners they constantly look upstream to find the root cause and then address those imbalances in such a way that works with the body to restore function and balance.

“All our services are geared towards helping the body achieve balance and health naturally,” says LeeJoy Ellis, ND owner and president of Glow Wellness LLC.

LeeJoy Ellis, ND started Glow Wellness LLC., seven years ago with the goal to positively impact people’s health and wellbeing. With a strong focus on personalized wellness that addresses the “whole person” physical, mental and emotional health.

“I am fortunate to partner with doctors and practitioners who have both experience and a deep knowledge base around regenerative, anti-aging medicine and functional psychiatry,” says LeeJoy.

Glow Wellness LLC., offers comprehensive testing that looks at important biomarkers like gut health, mitochondrial function, oxidative stress, inflammation along with toxic burden. They also offer genetic testing to look at the rate of cellular aging that measures your biological age vs chronological age. Knowledge is power and the insights gained from lab testing allow the Glow practitioners to personalize each wellness plan for their clients, with customized dietary recommendations, vitamin infusions and liquid supplements.

At Glow Wellness LLC., they understand and appreciate the important role nutrients play in cellular health and function. They offer a range of vitamin infusions that rapidly restore nutritional deficiencies. Safety is always a priority at Glow and each vitamin infusion is mixed and administered in a sterile environment, following the strictest aseptic techniques.

In addition to nutrient infusions, Glow Wellness LLC., also offers ozone therapies that work to optimize cellular oxygen utilization. Good health is dependent on healthy oxygen

levels in your body and their ozone therapies increase oxygen and hemoglobin dissociation, thus increasing the delivery of oxygen from the blood to the cells.

The journey of Glow Wellness LLC., towards optimal wellbeing extends into the realm of regenerative services, including peptide therapy and bio identical hormone replacement therapy. These services are all aimed at amplifying our natural healing processes by improving intercellular communication, speeding repair and regeneration.

To ensure the effectiveness of interventions, Glow Wellness LLC., conducts regular follow-up lab testing and organizes workshops on nutrition and healthy eating to encourage people to take a more active role in their health and wellbeing. Always embracing a personalized approach with natural interventions, Glow serves a wide range of clientele, ranging from those battling a serious disease like cancer to individuals looking for pro-active, anti-aging options.

LeeJoy Ellis, ND,
 Owner and President

“

All our services are geared towards helping the body achieve balance and health naturally

”

It turned out to be a lifesaver for a 19-year old client struggling with Lyme disease, polymygia rheumatic, brain fog and chronic fatigue. After testing and analysis, the team discovered multiple nutritional deficiencies, gut dysbiosis and poor methylation. Through a combination of personalized dietary guidelines, ozone therapies and customized nutrient infusions containing super antioxidants, they could improve the client’s health within six months. The clients experienced reduced anxiety, increased energy levels, improved sleep and diminished joint pain. The positive transformation had a ripple effect on the patient, enabling them to resume a normal life.

Glow Wellness LLC., continues to provide premier nutritional medicine and oxygen therapies to restore health naturally, cementing its position as the preferred choice for individuals looking for a natural way to achieve vibrant health. **HB**
