

aramboa

press

Electronica, Bass Music, Techno, Neo-Soul, Jazz, IDM – that are all insufficient terms, if you want to describe the sound of Aramboa. The real essence of the musical style the vienna-based producer Moritz Scharf creates is the fusion of these characteristic elements. Energetic and complex beats build the foundation for hypnotic and expressive harmonies of synthetic instruments, a brass section and wild guitar-licks, which sometimes circulate around the subtle but still powerful performance of vocal tracks. Aramboa combines a heavy bassloaded club experience, punchy Drumkits and intergalactic synth-clouds with mesmerizing instrumental solos in order to create what one might call an high-end musical out of body experience.

Launching Aramboa as a dreamy experimental electronic Act with the first Album ‚Mereon Matrix‘, which you might want to experience in a concert-setting, in the middle of 2018 Aramboa’s music found its purpose in creating energetic dancefloor experiences all over the world. From groovy DJ Sets, to soul-full, instrumental driven live performances Aramboa is a deepdive into a field where repetitive clubculture gets smashed by badass Jazzplayers.
