

For Immediate Release

Adacel to Feature Advanced ATM Solutions at CANSO World Congress

Orlando, Florida (February 7 , 2013) - Adacel announced today that the Company will feature the latest technology developments in its advanced Aurora ATM system at the CANSO World ATM Congress taking place in Madrid, Spain from 12 to 14 February. The Company will also show elements of their ATC Unified Training Solution.

The World ATM Congress combines a large-scale exhibition and world-class conference to showcase the latest trends and developments in air traffic control. As such CANSO World provides an ideal venue for Adacel to exhibit the advanced capabilities of its Aurora ATM systems and ATC simulators.

“We are excited to showcase our products at the first CANSO World ATM Congress. This venue promises to be an excellent opportunity to demonstrate the latest technology to ANSP and industry leaders,” Jeff Tyrcha, Adacel VP Business Development and Marketing.

Adacel's Aurora ATM is an integrated system for oceanic, en route, terminal and tower operations that is fully compliant with Amendment 1 to PANS ATM, DOC 4444. The system features functionality to support NextGen and SESAR initiatives including 4D profile protection, automated conflict detection, monitoring & control by exception, separation based on individual aircraft performance and equipment, dynamic airspace allocation, controller pilot data link communications (CPDLC) and automatic dependent surveillance contract and broadcast (ADS-C and ADS-B).

Adacel is well known for the advanced features in their ATC simulators and repeatedly win awards for innovation in the modeling and simulation industry. They will also highlight elements of their training systems at the CANSO event.

Adacel, a Bronze Sponsor of the inaugural event, will be located at stand #817 and will perform product demonstrations routinely throughout the period 12-14 February.

About Adacel

Adacel is a leading developer of operational air traffic management systems, speech recognition applications and advanced ATC simulation and training solutions. The Company's products are widely

used throughout Europe, North America, the Middle East and the Pacific Rim. Adacel's Aurora ATM includes capabilities envisaged for FAA NextGen and EUROCONTROL SESAR modernization programs.
