

## For Immediate Release

### Adacel to Showcase Advanced ATM Solutions at ICAO ANC

**Montreal, Canada (November 15, 2012)** - Adacel announced today that the Company will showcase elements of its advanced Aurora ATM system at the 12<sup>th</sup> ICAO Air Navigation Conference that will take place in Montreal, Canada starting November 19<sup>th</sup>.

The ICAO ANC will gather Air Navigation Service Providers and aviation industry representatives to Montreal to discuss future objectives aimed at global interoperability and airspace efficiency. Adacel is a proven supplier of advanced ATM automation and was a pioneer in the implementation of ADS/CPDLC in the South Pacific in the 1990's. Today Adacel's Aurora ATM automation software is used to control traffic throughout the oceanic airspaces of Fiji, Iceland, New Zealand, Portugal and the United States. Adacel is also a member of a SESAR JU Project AIRE consortium for trajectory optimization in oceanic airspaces.

Adacel's Aurora ATM is an integrated system for oceanic, en route, terminal and tower operations that is fully compliant with Amendment 1 to PANS ATM, DOC 4444. The Linux based system is scalable to meet all operational requirements and features functionality to support NextGen and SESAR initiatives including 4D profile protection, automated conflict detection, monitoring & control by exception, separation based on individual aircraft performance and equipment, dynamic airspace allocation, controller pilot data link communications (CPDLC) and automatic dependent surveillance contract and broadcast (ADS-C and ADS-B).

Adacel will be located at stand #9 and will perform product demonstrations routinely throughout the period 19-21 November.

#### **About Adacel**

Adacel is a leading developer of operational air traffic management systems, speech recognition applications and advanced ATC simulation and training solutions. The Company's products are widely used throughout Europe, North America, the Middle East and the Pacific Rim. Adacel's Aurora ATM includes capabilities envisaged for FAA NextGen and EUROCONTROL SESAR modernization programs.
