## **ASX ANNOUNCEMENT**

3 September 2008

Company Announcements Office  
Australian Stock Exchange

The following announcement is issued by the company for release to the market.

### **A\$1.6 MILLION EUROPEAN ATM SYSTEM UPGRADE CONTRACT**

Adacel has been awarded a contract valued at around A\$1.6 million (approximately Can\$1.5 million) to provide an upgrade to the training system capability for Nav Portugal's existing Adacel Aurora air traffic management system.

This upgrade follows the introduction of several Air Traffic Services (ATS) applications that were added recently to the operational system and which were not reflected in the training system. The upgrade will provide a more realistic level of training while reducing considerably the work involved in the preparation and conduct of training and the length of the qualification period for new controllers.
