

For Immediate Release

Adacel Expands To Larger Facility

Simulation and Software Firm Relocates North American Headquarters

Orlando, Florida (April 12, 2007) – Adacel, an industry leader in software integration, simulation development, and voice recognition technology today announced its move into a new, expanded facility near the Orlando International Airport.

“We are excited about this relocation to a larger facility. Adacel’s business is strong, and we simply outgrew our other location,” stated Fred Sheldon, Adacel’s North America CEO. “Our new facility is indicative of our expanding product set, growing customer base, and lasting presence in central Florida. Orlando provides a very supportive economic environment with an extremely talented and educated workforce, world class educational and research institutions, and a vibrant economy.”

The new office space is 55,000 square feet, and houses over 50 North America employees. The facility includes a demonstration center for Adacel’s leading-edge simulation product suite, and the company’s 24/7 SimCare Support Center.

Since moving to Orlando in 2003, Adacel’s staff has increased nearly 300% to keep pace with its growing product lines which include: the MaxSim ATC simulation system, ATCiB flight trainer, ARTT airfield driving simulator, and the VAST Homeland Defense and First Responder Preparedness systems.

About Adacel

Adacel (ASX: ADA) is a global software technology and systems integrator. The company is a leading developer of critical aviation, speech recognition, and defense simulation and security systems for government and commercial enterprises.
