## **A\$4.3 MILLION CONTRACT FROM US AIR FORCE FOR SIMULATION SUPPORT**

Adacel has signed a new Training Systems Support Center/ Contractor Logistics Support (TSSC/CLS) contract option with the United States Air Force.

The contract, valued at A\$4.3 million (US\$3.2 million), is for one year of support under the Tower Simulation System (TSS) program that includes planned support and maintenance options through to 2011.

Under this new contract option Adacel will assume full responsibility for the maintenance and support of over 90 USAF TSSs located at sites worldwide. Services will include: configuration management and documentation, maintenance and update of software baselines, 24/7 on call troubleshooting, system repairs, spares management and reporting.

“We have worked diligently with the US Air Force to ensure that their systems are continuously and seamlessly supported,” Adacel’s Managing Director, Silvio Salom said today. “This contract expands the support and maintenance services capabilities we provide for Adacel’s Air Traffic Control simulation systems.”

As part of the TSSC/CLS, Adacel will also provide a web-based Integrated Data Environment. This environment provides Adacel and the customer direct access to all support related documentation as well as contract-related plans, technical documents and performance metrics.

Adacel is the leading provider of air traffic control training simulators worldwide. Adacel’s radar and visual control tower training products are used by the US Air Force, Army and Marine Corps, the Federal Aviation Administration and NASA as well as over thirty air navigation service providers around the world.

### **About Adacel**

Adacel Technologies Limited is a leading developer of advanced simulation and control systems for aviation and defence. Since its establishment in 1987, Adacel has built an international reputation for its products and services through a commitment to technological leadership and customer support. From advanced simulation to air traffic management and voice recognition systems, training and professional services, Adacel’s products can be found in more than 30 countries. Adacel is listed on the ASX (Code: ADA) and can be found on the Web at [www.adacel.com](http://www.adacel.com).
