

Southern Cranes as a provider of crane lifting and excavation services, is committed to responsible environmental management to reduce its environmental impacts and promote quality of life. Southern Cranes is committed to the following:

- Maintaining an Integrated Management System compliant with the requirements of ISO 14001
- Reducing the impact on the environment or our activities
- Working with our clients, suppliers and any other interested parties to reduce their environmental impacts.
- Complying with any applicable legislation and codes of practice
- Setting specific and measurable environmental goals, monitoring our progress and encouraging a culture of continual improvement.
- Providing financial, physical and human resources to achieve these commitments.
- Minimise the extent of landfill through management of materials ordered and ensuring waste is recycled or treated
- Plan, monitor and revise (as applicable), our operations to minimise our environmental impact and the prevent pollution where possible
- Adequately control the performance of our activities to ensure that our environmental impacts are kept within acceptable levels
- Communicate this policy and our environmental commitments to all our staff and contractors.
- Display this policy within the organisation and make copies made available to the public upon request.
