Subject: RE: Mask question

Tammie,

“We are having a hard time finding supplies of masks for our medium risk workers, what do we do?”

Here are the steps for conditions of mask supplies that might be temporarily low:

Ensure that all workers are wearing at a minimum a cloth facial covering; **and**

Emphasize to workers to use social distancing of at least six feet except in passing at essentially all times; **and**

Have already placed an adequate order for disposable masks for those workers that need more than a cloth face covering and keep the documentation of the order and estimated arrival date; **and**

The supervisor to walk the floor to ensure social distancing is continuously enforced throughout the shift will suffice for DOSH enforcement until the order arrives.
