

MOODY'S | Better decisions

Activating an
environmentally
sustainable future

An aerial photograph showing a coastline. The left side of the image is dominated by deep turquoise water. The right side shows a dense forest of green trees bordering a rocky and pebbly shoreline. The water's clarity allows the seabed to be visible near the shore.

MOODY'S ENVIRONMENTAL SUSTAINABILITY MILESTONES AND TARGETS

SCIENCE-BASED TARGETS

Moody's Corporation commits to:

REDUCE ABSOLUTE
scope 1 and scope 2 GHG emissions 50% by 2030
from a 2019 base year

REDUCE ABSOLUTE
scope 3 GHG emissions from fuel and energy
related activities, business travel and employee
commuting 15% by 2025 from a 2019 base year

60%
OF ITS SUPPLIERS BY SPEND
covering purchased goods and services and capital
goods will have science-based targets by 2025

These targets serve as a milestone to REACH NET-ZERO EMISSIONS by 2050, consistent with its commitment to the United Nations Global Compact (UNGC) Business Ambition for 1.5°C.

RENEWABLE ENERGY

Beginning in 2020, Moody's will be procuring 100% renewable electricity for its global operations.

Currently, Moody's uses 100% renewable electricity in its London, Frankfurt and Edinburgh offices.

Moody's is procuring the renewable electricity through renewable energy attribute certificates in the short term and will ensure success in the medium and long term by increasing contracts with utility suppliers whose electricity originates from a renewable source where possible.

CARBON NEUTRALITY

Moody's achieved carbon neutrality for the first time in 2019 and is committed to remaining carbon neutral on an annual basis by mitigating emissions. This includes emissions from our direct operations, business travel and employee commuting.

Moody's is retroactively offsetting its greenhouse gas (GHG) emissions from September 2000, when Moody's became a public company.

To balance the residual emissions that result from our operations, we support carbon-offset projects that provide co-benefits such as support to biodiversity through forestry projects and promotion of prosperity to local communities where we operate. We approach the carbon offset project selection to align and support the UN's Sustainable Development Goals.

MOODY'S

SUSTAINABLE DEVELOPMENT GOALS

Moody's Corporation supports the Sustainable Development Goals

SUSTAINABILITY REPORTING ENHANCEMENTS

Providing transparency to our stakeholders.

TCFD

Moody's was one of the first financial services companies to support and respond to the [Task Force on Climate-related Financial Disclosures' \(TCFD\)](#) recommendations, and was featured as a case study in the [TCFD's 2020 status report](#).

CDP

Moody's has been recognized for its leadership in corporate sustainability by the global environmental non-profit CDP, securing a place on its prestigious 'A List' for tackling climate change. Moody's is one of a small number of high-performing companies recognized, out of over 5,800 scored worldwide, for its corporate environmental ambition, action and transparency.

"SAY ON CLIMATE" CAMPAIGN

Moody's recently announces the affirmation of the principles outlined in the ["Say on Climate"](#) campaign, a sustainability-focused initiative involving disclosure of emissions, a comprehensive plan to manage those emissions, and a shareholder vote on the plan at the 2021 Annual Meeting of Stockholders. Moody's is the first S&P 500 company to join this initiative, which is sponsored by The Children's Investment Fund Management (TCI) and The Children's Investment Fund Foundation (UK).

SASB

Moody's is an early [Sustainability Accounting Standards Board \(SASB\)](#) adopter and has reported using its recommendations since 2018:

Data security

Workforce diversity & engagement

Professional integrity
