

Professional hair and make-up - type-appropriate styling for every event.

Respectfully. Uncomplicated. Open. These values are at the top of my list of priorities. Always. These have always been the most important "things" in my professional career as a make-up artist, a career in which I have had, and indeed still have, contact with many interesting and exciting people. Since 2001 I have been working as a Make-up Artist. This calling led me to Cologne in 2004 and for three years I gained inspiration and considerable experience on the set of the daily soap "Verbotene Liebe" (Grundy Ufa Köln). I further expanded my knowledge in commissioned work for cinema and shows, including hair styling.

A freelancer for hair and make-up - Switzerland and abroad.

Professional. Trouble-free. Thoughtful. That's how I approach my work. Since my return to Switzerland in 2008 I have been working as a freelancer. Beauty, fashion, advertising (print and film), photography, Corporate Identity films - I deliver the right styling for every setting.

The right solution for unforeseen situations? I'll give you that. A calm head in unexpected situations? No problem! An intuitive feeling for the correct way to deal with people on set? Of course. At the end of the day, one thing counts most for me: The optimal solution and the perfect result for my customers.

I'm looking forward to working with you.

Claudia Röhrer
