SUPERANNUATION

## Description of your investment options

A description of the investment options that are currently available to Members, and the estimated annual fund charges for those investment options, is set out in the table below.

### Annual Scheme Charges

Manager's fee	0.4%
Scheme expenses (from 01/12/20)*	0.06%
<b>Total</b>	<b>0.46%</b>

\* Scheme expenses include estimates of the Scheme's accountancy, audit and Supervisor's fees. These are re-estimated each year for the following year and may, therefore, change without notice.

#### **Please note that:**

- any changes to the investment options will only be updated quarterly; and
- any changes to the estimated total annual fund charges, other charges and any individual action fees in respect of each investment option will only be updated annually.
- further possible investment options are available for selection by a Member after consultation with their Adviser.

## Custodian Brokerage Fees

### Other charges

Bank fees may apply where the Manager has to move member funds between accounts, such as from the Scheme's trust account to the Custodian.

### Brokerage Fees

Brokerage fees may apply to the following types of investments and will be deducted from your investment amount:

### Adviser Fees

As a member of the i-Select Superannuation Scheme you must appoint an Adviser to assist you in making decisions on the investments to be included in your Personal Plan. The service that the Adviser provides will be subject to a fee that is negotiated with you at the time of joining the Scheme and is deducted from your investment amount.

## Example of how fees apply to an investor

John Smith invests \$10,000 in a number of investment options. He is charged brokerage when his funds are invested of \$20.00 (0.2% of \$10,000).

This brings the starting value of his investment to \$9,980.00.

He is also charged the management fee, which works out to \$39.92 (0.4% of \$9,980.00), and Scheme expenses of \$5.99 (0.06% of \$9,980). These fees might be more or less if his account balance has increased or decreased over the year and are dependent on the type of investments he has selected.

He is also charged an ongoing Adviser fee, which works out to \$99.80 (1% of \$9,980.00). These fees might be more or less if his account balance has increased or decreased over the year and are dependent on the type of investments he has selected.

Over the next year John pays other charges of \$15 being a bank charge to move funds.

### Estimated total fees for the first year:

Brokerage:	\$20.00
Management fee:	\$39.92
Scheme expenses*:	\$5.99
Adviser fee:	\$99.80
Other charges:	\$15.00
<b>Total:</b>	<b>\$180.71</b>

\*These expenses only from 01/12/20

If John's investment options include any funds, those funds may be subject additional fees (including performance fees) and expenses.

This example may not be representative of the actual fees you may be charged and reflects a mix of investment options at the maximum management fee rate.

## Understanding the risk indicator

A risk indicator in relation to an investor's investment portfolio will be provided by an investor's adviser prior to any investments being made on behalf of the investor.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down (volatility). A higher risk generally means there is the potential for higher returns over time, but with the risk of higher losses, and there are likely to be more ups and downs along the way.

To help you clarify your own attitude to risk, you must seek financial advice from an adviser. In addition, you may work out your risk profile at <https://www.sorted.org.nz/tools/investor-kickstarter>.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

The risk indicator is not a guarantee of a Personal Plan's future performance. The risk indicator is based on the returns data for a five year time period. While risk indicators are usually relatively stable, they do shift from time to time.

### Example risk indicator

See the **product disclosure statement (PDS)** for more information about the risks associated with investing in an investment portfolio.

## Exit Fees

---

An Exit Fee applies if funds in excess of 30% of the original contribution amounts are taken as lump sum benefits within a two year period (the amounts caught by the Exit Charge are called "Relevant Contributions" here). The Exit Fee is 3% if Relevant Contributions are taken as lump sum benefits within 12 months, and 1.5% if taken as lump sum benefits between 12 and 24 months.

Part of any Exit Fee will be paid to your Adviser unless they elect to waive it. Where your Adviser elects to waive the payment, the Exit Fee will be reduced to 2.5% (within 12 months) and 1.25% (12 to 24 months) respectively.

Exit fees do not apply to the growth on Relevant Contributions, or Income for Life Payments on Relevant Contributions.
