

HOW TO DETERMINE YOUR RING SIZE

FIRST- Select a ring that you know properly fits the finger it is worn on. Engagement and wedding rings are traditionally worn on the left (ring) finger on the left hand in the United Kingdom.

NEXT - Place the ring over the circles below, matching the inside edge of the ring to the circle nearest in size. This measurement refers to the inside diameter of the ring.

You can also measure the inside of the same ring with a ruler as shown above and see what the measurements correspond to at the right.

NOTE - If the ring falls between two sizes, you can either order the larger size or check with your sales consultant, as it may be that the size is not detailed on this sheet and an adjustment can be made.

If in doubt, it is better to have the ring a little too large, rather than too small.

For an engagement ring, remember that if the intended wearer is right handed, and the ring you have is worn on the right hand, an adjustment down will be made, as the leading hand has very slightly thicker fingers because of muscle use. This isn't visible to look at, and is completely normal.

PRINTING INSTRUCTIONS

- Before printing, ensure that page scaling is set to "none" on your print dialog box.
- If the measurement is not accurate, check that you are printing at full size (100%) and reprint.

INTERNATIONAL RING SIZE CHART

Circumference (mm)	Diameter (mm)	UK, & Australia	United States & Canada	CN/ SG/ JP	France	Switzerland
44.2	14.1	F	3	4	44.5	4
