

tecViz Event

tecViz Event includes interactive features such as questionnaires, free text functions and polls, and is used to ask questions to speakers, participate in quizzes, brainstorm ideas, and much more. The audience response is presented on the big-screen as word clouds, graphs, speech bubbles and tables, igniting discussions about the outcome. In addition, tecViz Event also provides a view of the daily agenda, information on speakers, exhibitors, maps and travel & hotel info via an easy-to-navigate menu.

REMOTE SPEAKER

Live camera feed from the speaking delegate.

QR CODE

Aim your cell phone camera towards the QR code and you're all set in a sec!

POLLS

Find out general opinions and challenge your audience by throwing a quizz or poll.
