

Overview information

Why we serve

Broadstep University seeks to breathe life into our mission to be a community partner of choice. As a part of our corporate educational department, our primary purpose is to educate caregivers, healthcare professionals and employees of companies serving the I/DD and behavioral health communities.

Our training modules are designed to meet and exceed the expectations of state regulations for healthcare providers. We believe a well-prepared workforce is essential to consistent, quality care for those in need. Our services include:

Multi-modal approaches to instruction

Customized, tailored facilitation for participants;

Opportunities to share real-world experiences with like-minded leaders

Competence assessments above and beyond compliance testing requirements

Our WI partner course list is included below.
We offer tailored trainings by state.
