Welcome to the Värtan Studio in Stockholm! We are ready to facilitate your virtual event and let you communicate with your audience, no matter where they are in the world.

All made possible through live secured streaming, custom made interaction and on-demand technology. The studio set design can be customized according to your needs, using high-res displays, creative lighting solutions and various furnishing solutions. The Värtan Studio Stockholm offers the technology and trained professionals to stream the production to your website, social media platforms or secured landing pages in real-time and on-demand.

Image show possible set design
