

# FeedbackFruits Tool Suite

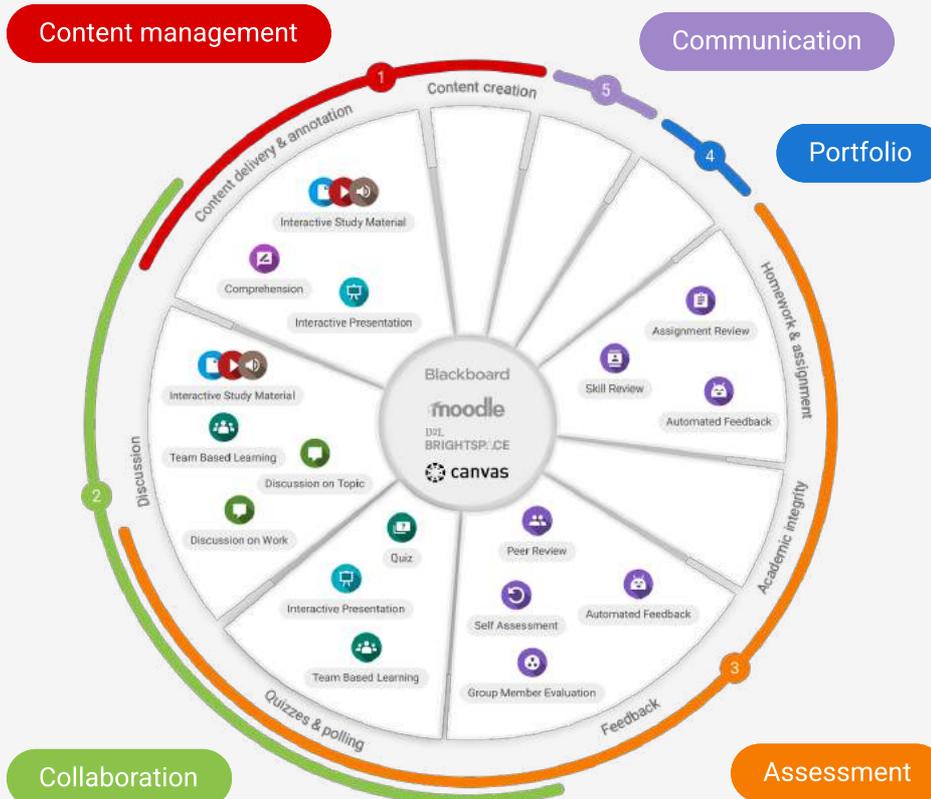

Help institutions make their learning experience in Canvas more engaging, scalable, and inclusive.

FeedbackFruits tools help you create engaging, scalable learning experiences in either face-to-face, hybrid, or online setting with seamless Canvas integration.

Whether it is a class of 50 or 500, you can easily design varied engaging learning activities thanks to the uniform and streamlined design.

## Digital Learning Ecosystem with FeedbackFruits

FeedbackFruits Tool Suite accommodates a range of pedagogical aspects from assessment to collaboration within [your digital learning ecosystem](#).

Also, with seamless Canvas integration:

- No additional log in is required
- Canvas groups are synced automatically
- FeedbackFruits grades are pushed to Canvas gradebook
- FeedbackFruits deadlines appear in Canvas calendar

FeedbackFruits is trusted by 100+ institutions worldwide

“ [FeedbackFruits tools] were doing exactly what we wanted to achieve, making everything easier for IDs and instructors, teaching assistants (TAs), and students.”

Tony Leisen  
Instructional Design Manager, Carlson School of Management

## Reduce the time sink of course design

FeedbackFruits saves time on manual work to focus on what’s important: teaching.

It takes little time to create group assignments with automatic group sync. Shareable templates and rubrics mean no more time wasted on creating each activity separately.

“ The tool really worked very seamlessly. The teaching team was able to see who had done what, and the students were immediately able to see the feedback released.”

Linda Lee  
Director of Instructional Design, The Wharton School

## Intuitive user experience

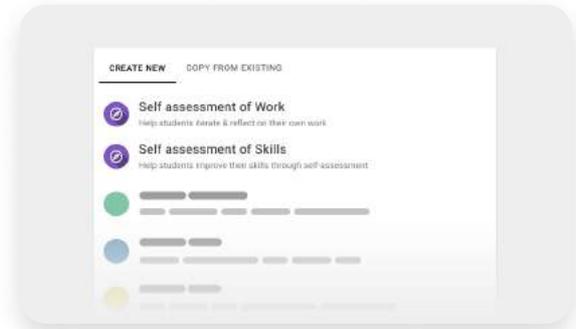

Using FeedbackFruits is as easy as it gets.

All components of a FeedbackFruits activity can be set up and completed in a single assignment. Instructors can easily navigate between steps; change settings, add/remove modules or publish grade.

## Full flexibility for any pedagogy

Feedbackfruits can support all use case levels, course settings (in-person, online, hybrid), and class sizes in Canvas.

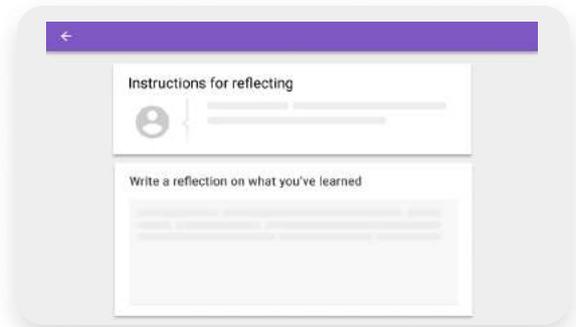

From the Tool Picker, simply select a tool compatible to your teaching goals. The tool is then immediately ready for setup in your Canvas course.

## Clear overview of student progress

Intervening in the right moment can do wonders for students’ success.

Instructors can track individual and group’s real-time progress in each activity step with FeedbackFruits’ in-depth analytics. These data can also be exported for analysis and improvement by institutions.

## Accessible & secure technology

- Compliant with GDPR and FERPA
- IMS Global Trusted App for interoperability with LMS Systems, and Data Privacy
- Certified for security of platform and database
- Hosting transparency on Microsoft Azure
- WCAG 2.0, 2.1, and 2.2 (A, AA) compliance
- 24/5 live user support
