

FeedbackFruits Tool Suite

Facilitate peer feedback, group work, discussions, and more with the all-in-one tool suite integrated into your Moodle.

The uniform, intuitive user interface saves you plenty of time creating varied learning activities (peer feedback, group assessment, discussions), regardless of the class size and delivery modes. By accommodating varied teaching approaches, FeedbackFruits tools help enhance student engagement, stimulate meaningful interactions, and quality feedback.

Digital Learning Ecosystem with FeedbackFruits

FeedbackFruits tools are compatible with different pedagogical approaches within your digital learning ecosystem.

Also, with seamless Moodle integration:

- No additional log in is required
- Moodle groups are synced automatically
- FeedbackFruits grades are pushed to gradebook
- FeedbackFruits deadlines appear in Moodle calendar

FeedbackFruits is trusted by 100+ institutions worldwide

Cornell University

MONASH
University

EASTERN
NAZARENE COLLEGE

THE UNIVERSITY OF
MELBOURNE

“ I found the tools from FeedbackFruits generally intuitive and beneficial as a way of getting students involved.”

William McCoy
Vice President for Academic Affairs, Eastern Nazarene College

High quality feedback opportunities

FeedbackFruits tools aid instructors in cultivating a strong feedback culture, by streamlining all feedback types at any level.

Instructors can scale the feedback activities to any classroom size or course modality.

“ I think this works better than the Forum in Moodle. Students don't engage like this is discussion content in Moodle, but they do in FeedbackFruits.”

Jess Mitchell
Lecturer, Monash University

Increased student engagement

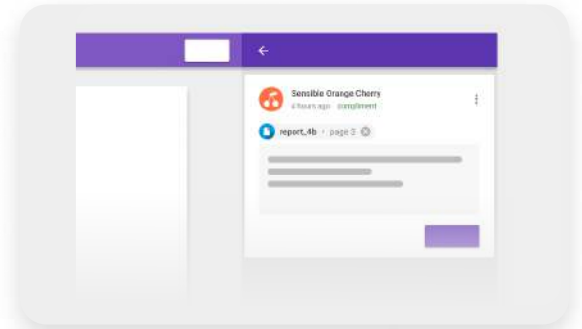

FeedbackFruits optimizes asynchronous and synchronous engagement in any course modality.

Instructors can enrich the study materials with in-line questions and discussions to stimulate active engagement and deeper understanding of content by students.

Full flexibility for any pedagogy

Technology should adapt to pedagogy, not the other way around.

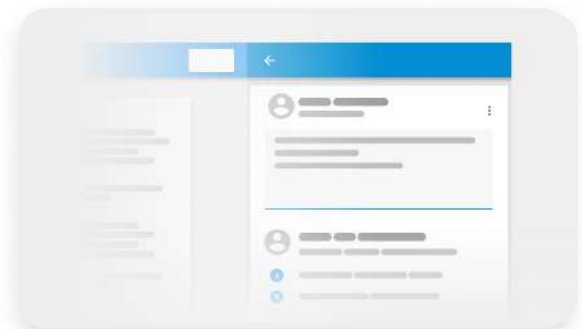

FeedbackFruits can support all levels of use cases with customizable settings for any course modality (in-person, hybrid or online) and student cohort within Moodle.

Meaningful interactions and dialogues

Collaboration and team work are key to success at school and in future career.

Several FeedbackFruits' tools can be utilized to encourage collaboration, accountability, and engagement.

Accessible & secure technology

- Compliant with GDPR and FERPA
- IMS Global Trusted App for interoperability with LMS Systems, and Data Privacy
- Certified for security of platform and database
- Hosting transparency on Microsoft Azure
- WCAG 2.0, 2.1, and 2.2 (A, AA) compliance
