

SURPRISE YOUR GUESTS WITH JACKFRUIT DISHES THAT PEOPLE LOVE

Jack is a natural fruit: 100% vegan, rich in fibers & nutrients and free of allergens. One jackfruit easily weighs 25kg and, underneath his rugged exterior, you find the ideal ingredient to replace meat. Chefs love him just the way he is: fresh & raw.

Jack's meaty texture and ability to mix with all types of spices allow him to steal the show. It gives chefs the power to re-create crowd favorites like burgers, gyros, or croquettes, but meat-free.

He is a true jack of all trades, ready to conquer the hearts of meat lovers one bite at a time. Meet Jack, a fruit for meat lovers.
