- 2** Say goodbye to late payments and bad debt for good. Use the risk insight tool to view the credit score and payment history of any business and help clients understand their customers.
- 3** Enable better client conversations with Satago's practice analysis tool. Easily view and share your clients' receivables information, from aged debtors to largest open invoices.
- 4** Help clients fund future projects and cover cash gaps. Finance one or multiple invoices with no long-term commitment or hidden fees, with Satago's single invoice finance.

Do your clients struggle with late payments and bad debt? If so, they're not alone.

According to the Federation of Small Businesses, late payments cause 50,000 SMEs to collapse each year. The situation has worsened in recent months, with 62% of SMEs suffering from late or frozen payments as a result of the pandemic.

As businesses teeter on the brink, accountants must equip themselves with the tools to help their clients survive.

"Has been our 'go to' app for any of our clients offering their customers sale on credit terms. One of our clients has saved in excess of £20,000 per annum by using it!"

–Peter Jarman, PJCO Chartered Certified Accountants

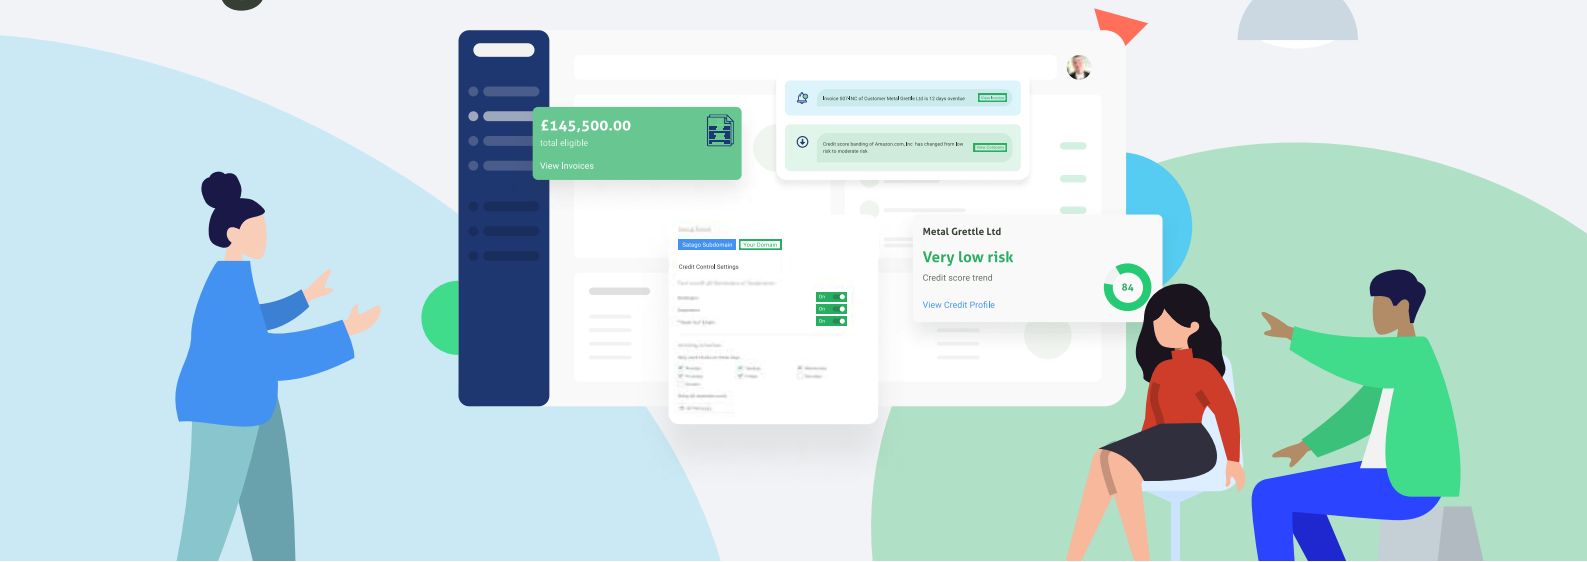

Solution

Satago provides everything you need to help your clients get paid on time, avoid credit risks and cover cash gaps when they need to.

Our platform integrates with your and your clients' accounting software in a few clicks to provide automated credit control, practice analysis, risk insights and single invoice finance, all in one place.

Once you've subscribed to Satago, your clients will gain free access to the standard platform and will receive a discount if they upgrade to Satago Plus, saving them £300 a year.

Satago chases invoices so you don't have to

The average business spends over seven hours a week chasing invoices. Satago's automated credit control tool will chase your clients' invoices for them, so they can reinvest that time in growing their business.

"We tried a couple of solutions to reduce our debtor days, but none even came close to Satago."

—Duncan Dibble, More Group

Satago integrates with any mail server, allowing you and your clients to send automated payment reminders, monthly statements and thank you emails from your own mail address.

Enable meaningful client conversations

Protect your clients from the threat of late payments and bad debt by helping them understand their customers' credit score and payment history.

Provide actionable insight at the touch of a button and share information in easy-to-understand reports. Satago's software is always live, so if a customer's credit score changes, an invoice becomes overdue or in dispute, you'll be notified.

Provide a flexible finance solution

If your clients need access to a fast and reliable funding solution, Satago can help.

Clients can unlock cash from their unpaid invoices in a few clicks, with no long-term commitment or hidden fees when they apply for single invoice finance with Satago.

Grow your practice

By offering your clients the tools and advice they need to improve their cashflow, you will strengthen client relationships and help grow your practice.

Giving clients access to Satago will provide them with everything they need to get paid faster, avoid credit risks and cover cash gaps when they need to, without the added time commitment.
