

## A FRIENDLY REMINDER ABOUT SOCIAL DISTANCING WHILE AT THE POOL

**Thank you for visiting the pool today! This is a friendly reminder to be kind and respect others as you social distance throughout your day here at the pool. Here are some ways you can help make a comfortable experience for you and for others:**

- **While moving about the facility area, respect the 6 foot social distancing between families.**
- **While in the pool, spread out in the water and avoid close contact with other families.**
- **When considering an area to leave your towel and belongings, spread out on the pool deck and grass areas and respect the space of others around you.**
- **Be kind and allow someone to enter or exit the pool while you step aside and wait until it is clear is a great way to respect the space of others.**
- **While waiting to go down the slide or to get on the diving board, respect the space of others around you who are also waiting.**
- **Allow space between others while using the restroom areas. Try to allow individuals to enter and exit the narrow restroom doorway area while giving respectful space.**
- **In the concession area, look for the markings on the concrete and remain 6 ft apart in the line while you are in that area.**

**We hope that you can help us provide a safe and comfortable environment here at the pool so that our facility can remain safely open this summer. We hope you have a great day at the pool!**
