## **Important Senior Center News**

### **Responding to the COVID-19**

Everett Senior Center values the health and safety of our community and staff especially at this time when Coronavirus (COVID-19) is of great concern. It is important to keep our community informed on current procedures to address this concern.

In accordance with CDC recommendations, and to follow guidelines shared by the joint governments of Blount County, **the Everett Senior Center will be until further notice.** The situation will be monitored regularly, and a determination will be made on when the center is ready to open as usual.

This period will allow our staff to deep clean the entire facility, as well as limiting public interaction in an effort to reduce the risk of the spread of the virus in our community.

The main Parks & Rec website ([www.parksrec.com](http://www.parksrec.com)) will also have updates posted as necessary.

A useful website for updates and resource links has been created by the joint governments of Blount County. Please check this site for important information and updates in our community:
