Home Health Services

The care you need, right where you live

The best possible care.

Did you know that Manor of the Plains has high-quality in-home services that don't interrupt your life, but instead make it easier?

Manor of the Plains Home Health Services offers individualized, in-home care for residents of independent living — with the supervision of a professional nurse. Through development of an individualized Care Plan, we'll help you determine what type of service is right for you — and for how long.

Each of our qualified staff members meets our high standards and competency requirements — from therapy professionals and home health aides to personal care attendants and companions.

To promote optimum health, we offer all residents of Manor of the Plains Home Health Services education regarding their individual needs, from blood glucose monitoring to managing diabetes.

An improved well-being.

We understand that sometimes the smallest bit of help can make the biggest difference. That's why our Home Health Services includes homemaker/companion services to help with everyday needs such as housekeeping, shopping, preparing meals and keeping appointments. Our Home Health Aides can also assist you in putting your best foot forward every day, by providing assistance with some of your activities of daily living. It's all part of our commitment to the way you want to live.

Services may include help with:

- Grooming/bathing/dressing
- Skin care
- Safety supervision
- Laundry assistance
- Medication assistance
- Oxygen assistance
- Companion service

A preventive approach.

In order to promote maximum health, Manor of the Plains Home Health Services works preventively, offering medication management, treatment of minor conditions and other services as needed to avoid additional health issues.

Delivered by Home Health Aides and Licensed Practical Nurses and supervised by Registered Nurses, our care is available for as long as needed, and is designed to work around your schedule each day.

At Manor of the Plains Home Health Services, we do everything we can to allow residents to remain in their home within our community. If it is determined that further care is appropriate, we'll assist and/or make referrals to local resources, as needed.
