

RIEKE OFFICE INTERIORS

www.rieke.com

While health hazards continue to threaten public health, updating worksurfaces with antimicrobial laminate will increase the hygiene of your office. Effective against a broad spectrum of microbes, enhanced protection is built directly into the laminate.

What will antimicrobial laminate do?

- Reduce microbe count on a surface by up to 99.5%
- Help to reduce cross-contamination
- Provide greater protection for public places
- Inhibit the growth of bacteria
- Ease employee's minds when returning to work
- Beautify your workspace at a low cost
