INCOME MOVEMENT

Income Movement Adds National Cash Leaders to Board of Directors

July 12, 2021 - Income Movement, the leading grassroots organization working to generate support for a national basic income, has added several new members to its board. The expertise of these leaders will play a critical step in setting the organization's strategic vision over the next year and advising on key priorities including an annual leadership convening, rebranding and re-focusing of the BIG Conference (formerly the NABIG Congress) and establishing an annual Guaranteed Income Event Series.

Income Movement's board now includes:

Andrew Stern – President Emeritus SEIU, Senior Fellow Economic Security Project, and Author: *Raising the Floor: How a Universal Basic Income Can Renew Our Economy and Rebuild the American Dream*.

Adam Roseman – CEO of Steady, an organization that utilizes its technology to drive and measure impact across emergency cash, UBI, Unemployment Insurance, and jobs.

Gisèle Huff – Founder, Gerald Huff Fund for Humanity, an organization working to raise awareness of universal basic income and to promote its understanding, acceptance and implementation.

Chris Panizzon – Producer of more than 20 films, including *Inherent Good*, the first US documentary film focused on UBI and its impact on individuals and communities.

Crystal Rutland – (Treasurer) CEO of Particle Design, a user experience firm leading the design of products for Fortune 500 companies across a wide range of industries, including automotive, hardware, mobile, healthcare and more.

Beth Kaufka-Haworth – (Secretary) Educator, Writer, and Founder, Yeondae a coalition of Korean American adoptees working in support of Black Lives Matter, Immigration Reform and Adoptee Rights.

Stacey Rutland – (President) Founder, Income Movement.

The concept of a basic income – unrestricted cash payments from the government made on a regular basis – has made huge progress since the COVID-19 pandemic. In working to offset the dire economic damage caused by the virus, leaders have embraced policies such as multiple

stimulus checks and an expansion of the Child Tax Credit to nearly every parent in America. [Polling released last week](#) shows that a bipartisan majority of voters support both a guaranteed income and the expanded CTC's permanency.
