To whom it may concern,

This is to confirm that Northamptonshire Community Foundation is a registered charity (no. 1094646) and a company limited by guarantee (4269030).

The Northamptonshire Community Foundation is a unique charity which promotes and manages philanthropy.

We are the leading independent grant-making charity in the county and we are proud to have worked with our fund holders and donors to ensure projects make a sustainable impact on local, national and international needs, helping our donors make the most of their charitable giving.

We deliver a variety of funding for the local voluntary and community sector awarding grants of over £1million annually. We are dedicated to funding community-based action which improves the lives of our county's most disadvantaged people and communities. Child poverty, unemployment, homelessness, domestic violence and social isolation are just some of the issues we strive to tackle each year.

We are one of 46 Community Foundations across the UK which are playing a leading role in the development of community philanthropy and resources to sustain communities. For information and contact details of all Community Foundations and to find out about issues being addressed by the UK Community Foundations please visit their website

With the help and support of our donors and partners we are able to assist the communities and causes that our donors care about the most.

I can confirm that we will be working in partnership with Food 4 Heroes, which is gathering increased support for people to be able donate to their cause and in response to this, they have decided to set up a named fund with the Foundation. This allows for donations to be received, gift aid to be accessed and grants to be awarded through a system that provides due diligence and scrutiny. We hold many named funds on behalf of our philanthropists who choose to give to their causes via this Community Foundation.

We manage endowments and flow through funds and this year the Foundation's funds under management will reach £18 million.
