

December 15, 2020

Dear Residents, Staff, Families;

Positive Case – Unidine Employee Villa

A Villa food & beverage staff member tested positive today. All Villa residents and employees will be tested as a precaution and trace testing is underway with other dietary staff within the community.

Positive Case – You're First

A You're First employee tested positive today. Four Towers residents have been contacted and will be tested as a result.

Employee Gifting

As a reminder, it is against our company policy for employees to accept individual gifts or tips from residents. The employees are rewarded by residents each year through the Employee Appreciation Fund. The only exceptions are baked goods, candy, and other food items of limited value (\$20.00 or less).

Vaccine Survey Results

Thank you to the residents and employees who responded to the vaccine survey. The results show most residents want to receive the vaccine in the first phase as soon as it is offered. Our employees were split down the middle on their responses. Monterey will continue to provide education and updates on the vaccine as we receive them.

Thank you,

Angela Cozort, President and CEO
