

BECAUSE SAFETY COMES FIRST

OUR CORONA PROTECTIVE MEASURES

During the Covid-19 pandemic, we felt how much we lacked personal exchange, real encounters and shared experiences. We at FLEET Events are therefore very happy that events are again possible. As a trade fair and congress organiser, we are fully aware of our responsibility: The safety of all participants is our most important goal for every event. This is why we have created the necessary framework conditions. When it comes to Coronavirus protective measures, we follow the current recommendations of the German federal government agency Robert Koch Institute and the guidelines of the individual German federal states. We basically comply with the 3-G rule, but other guidelines may apply depending on local conditions. You will find the hygiene regulations for the trade fair or congress you are attending on the relevant event page.

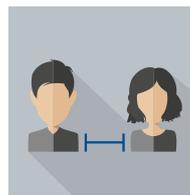

THE 3-G-RULE (VACCINATED, RECOVERED, TESTED): SAFE ACCESS TO OUR EVENTS

Only people with proof of full vaccination, recovery from COVID-19 or a current negative coronavirus test (with certificate) can enter our events. Please show your vaccination pass, proof of recovery or test result and your ID card at the entrance to the event. Test validity: Rapid antigen test taken within 24 hours, PCR test taken within 48 hours.

MOUTH AND NOSE PROTECTION

As soon as you move freely in the room, please wear mouth and nose protection. FFP2, surgical or KN95 masks are mandatory. An everyday fabric mask is not sufficient. You may remove it in seating areas or at a permanently assigned place.

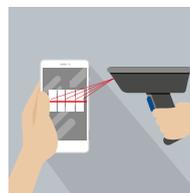

1.5 M MINIMUM DISTANCE

We provide extra-large rooms and plenty of space at stands, in corridors and halls. Please always keep a minimum distance of 1.5m from all participants.

DISINFECTION

We are increasing the cleaning cycles of all premises. Please also make use of our disinfection dispensers which are installed throughout the premises.

DATA REGISTRATION

We record all attendee data for targeted contact tracking.

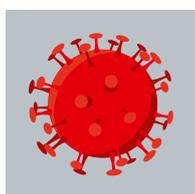

LIMITED NUMBER OF VISITORS

Through targeted measures, we will optimally control the flow of visitors and avoid a high density of people.

NEW CATERING CONCEPTS

We implement the catering concept in accordance with the currently valid regulations.

STAY AWAY IN CASE OF ILLNESS

If you feel ill, please stay at home. We cannot admit persons with flu-like symptoms.

VENTILATION

We ensure consistently good ventilation in all locations. Even if you don't see a window, a ventilation system in the background will regularly renew the air.

OUR REQUEST TO ALL PARTICIPANTS

- Wear **mouth-nose protection**
- Note the **distance markings**
- **No handshaking** or **hugging**
- **Wash and disinfect hands** regularly
- Regelmäßig **Hände waschen** und **desinfizieren**
