

## 2021 COVID Response Timeline

### Present – January 1, 2021

**September 9, 2021** – President Joe Biden announces that all medical facilities that receive Medicare and Medicaid funds will be subject to a vaccine mandate or risk losing funding. Also, Biden asked the Department of Labor to require vaccination or weekly testing in all businesses with 100 or more employees.

**September 3, 2021** – Aberdeen Heights announces three residents (two independent living and one assisted living), one essential health care worker and one non-direct resident care employee have tested positive for the virus. The residents will recuperate in their apartments or a designated COVID-19 isolation area, cared for by designated staff. The health department has been notified and surveillance testing will continue.

**September 3, 2021** – Rolla Presbyterian Manor announces a contract employee has tested positive for the virus. The employee last worked August 27. The health department has been notified and surveillance testing will continue.

**September 3, 2021** – Newton Presbyterian Manor announces two non-direct care employees have tested positive for the virus. The employees last worked on August 27 and September 1, respectively. The health department has been notified and visitation remains suspended per their order. Surveillance testing will continue.

**September 3, 2021** – PMMA launches formal “Why Vax?” campaign encouraging employees who have not yet gotten vaccinated to consider vaccination.

**August 27, 2021** – Topeka Presbyterian Manor announces a health care employee has tested positive for the virus. The employee last worked on August 21. The health department has been notified and surveillance testing will continue.

**August 27, 2021** – Aberdeen Village announces four independent living residents have tested positive for COVID-19. The residents will recover in their residences. The health department has been notified. Indoor visitation and communal dining are paused for independent living at this time.

**August 27, 2021** – Manor of the Plains announces an essential health care worker has tested positive for the virus. The health department has been notified and surveillance testing will continue.

**August 21, 2021** – Parsons Presbyterian Manor announces an essential health care worker has tested positive for the virus. The employee last worked on August 9. The health department has been notified and surveillance testing will continue.

**August 21, 2021** – Salina Presbyterian Manor announces an employee has tested positive for the virus. The employee has not worked since August 5. The health department has been notified and surveillance testing will continue.

**August 20, 2021** – Farmington Presbyterian Manor announces two non-direct care employees have tested positive for the virus. The health department has been notified. Surveillance testing will continue. Visitation and communal dining activities are paused.

**August 20, 2021** – Emporia Presbyterian Manor announces a contract health care employee has tested positive for the virus. The health department has been notified and surveillance testing will continue.

**August 20, 2021** – Topeka Presbyterian Manor announces a contract health care employee and a direct resident care employee have tested positive for the virus. The employees last worked on August 15 and 17 respectively. The health department has been notified. Visitation, communal dining and activities are suspended at this time. Surveillance testing will continue.

**August 20, 2021** – Fort Scott Presbyterian Village announces an assisted living resident has tested positive for the virus. The resident will recover in their apartment. Indoor visitation remains suspended. Surveillance testing will continue. The health department has been notified.

**August 20, 2021** – Aberdeen Village announces three independent living residents and an essential health care employee have tested positive for the virus. The residents will recuperate in the COVID-19 isolation area, cared for by designated staff. The employee last worked on August 18. The health department has been notified and indoor visitation and communal dining are paused for independent living at this time. Surveillance testing will continue.

**August 20, 2021** – Aberdeen Heights announces a non-direct resident care employee has tested positive for the virus. The employee last worked on August 18. The health department has been notified and surveillance testing will continue.

**August 20, 2021** – Arkansas City Presbyterian Manor announces three residents and an essential health care employee have tested positive for the virus. The residents, all memory care, will recuperate in isolation and be cared for by designated staff. The employee last worked on August 13. The health department has been notified and visitation is suspended at this time. Surveillance testing will continue.

**August 18, 2021** – President Joe Biden announces that “nursing homes” receiving Medicare and Medicaid funds will have to have 100-percent of their staff vaccinated to continue to receive those funds.

**August 16, 2021** – Heart and Soul Hospice announces a non-direct patient care employee has tested positive for the virus. The employee last worked on August 13.

**August 13, 2021** – Arkansas City Presbyterian Manor announces that an essential health care worker and a memory care resident have tested positive for the virus. The employee last worked on August 13. The health department has been notified and visitation is suspended for all memory care residents. Surveillance testing will continue.

**August 13, 2021** – Aberdeen Heights announces an essential health care worker and a non-direct resident care employee have tested positive for the virus. The employees last worked on July 10 and August 7. The health department has been notified and surveillance testing will continue.

**August 13, 2021** – Fort Scott Presbyterian Village announces a non-direct resident care employee has tested positive for the virus. The employee last worked on August 8. The health department has been notified and surveillance testing will continue. Indoor visitation remains suspended at this time, along with patio visits.

**August 13, 2021** – Salina Presbyterian Manor announces one health care resident, one independent living resident and one essential health care worker have tested positive for the virus. The residents will recover in isolation and their residence, respectively, and be cared for as needed by designated staff. All visitation in memory care, assisted living and health care, as well as independent living visitation, remains suspended at this time. Surveillance testing will continue.

**August 13, 2021** – Parsons Presbyterian Manor announces a health care resident has tested positive for the virus. The resident will recover at a local hospital, where they tested positive. As a precaution, all health care residents were tested and were negative. Staff surveillance testing will continue.

**August 13, 2021** – Lawrence Presbyterian Manor announces an essential health care worker has tested positive for the virus. The employee last worked on August 10. The health department has been notified and surveillance testing will continue. Visitation in health care, along with communal dining and group activities, is suspended at this time.

**August 13, 2021** – Farmington Presbyterian Manor announces five employees have tested positive for the virus. The four non-direct care employees and one essential health care worker last worked between August 6 and 10. The health department has been notified and visitation, communal dining and activities are paused at this time. Surveillance testing will continue.

**August 6, 2021** – Arkansas City Presbyterian Manor announces a non-direct resident care employee has tested positive for the virus. The employee last worked on August 3. The health department has been notified and surveillance testing will continue.

**August 6, 2021** – Salina Presbyterian Manor announces an essential health care worker and an independent living resident have tested positive for the virus. The resident will recuperate in their apartment. The employee last worked on July 29. As a precaution, all visitation in memory care, assisted living and health care are suspended. Indoor visitation in independent living is also suspended. The health department has been notified and surveillance testing will continue.

**August 6, 2021** – Topeka Presbyterian Manor announces a health care resident and an essential health care worker have tested positive for the virus. The resident will recuperate in the COVID-19 isolation area, cared for by designated staff. The employee last worked on July 30. The health department has been notified. All visitation, communal dining and activities are suspended at this time. Surveillance testing will continue.

**August 6, 2021** – Newton Presbyterian Manor announces a non-direct resident care employee has tested positive for the virus. The employee last worked on July 30. The health department has been notified and surveillance testing will continue.

**August 5, 2021** – Aberdeen Heights announces an essential health care worker and two independent living residents have tested positive for the virus. The employee last worked on July 25. The residents will recuperate in their residences. The health department has been notified and surveillance testing will continue.

**August 5, 2021** – Clay Center Presbyterian Manor announces an essential health care employee has tested positive for the virus. The employee last worked on August 2. The health department has been notified and surveillance testing will continue.

**August 5, 2021** – Fort Scott Presbyterian Village announces a non-direct care employee has tested positive for the virus. The employee last worked on August 2. The health department has been notified and surveillance testing will continue.

**August 5, 2021** – Rolla Presbyterian Manor announces a contract therapist has tested positive for the virus. The employee last worked on July 27. The health department has been notified and surveillance testing will continue.

**August 5, 2021** – Topeka Presbyterian Manor announces an essential health care employee has tested positive for the virus. The employee last worked on July 30. The health department has been notified and surveillance testing will continue.

**July 30, 2021** – Emporia Presbyterian Manor announces a health care resident has tested positive for the virus. The resident will recuperate in the COVID-19 isolation area, cared for by designated employees. The health department has been notified.

**July 30, 2021** – Salina Presbyterian Manor announces a memory care resident and three essential health care employees have tested positive for the virus. The employees last worked on July 21, 22 and 28, respectively. The resident will recuperate in the COVID-19 isolation area, cared for by designated employees. The health department has been notified and surveillance testing will continue.

## PMMA (Presbyterian Manors of Mid-America) Response Timeline

**July 30, 2021** – Fort Scott Presbyterian Village announces a non-direct care employee has tested positive for the virus. The employee last worked on July 23. The health department has been notified and surveillance testing will continue.

**July 29, 2021** – Parsons Presbyterian Manor announces two essential health care workers have tested positive for the virus. The employees last worked on July 19 and July 28, respectively. The health department has been notified. Surveillance testing will continue.

**July 29, 2021** – Manor of the Plains announces a resident who previously tested positive for COVID-19 has died.

**July 29, 2021** – Newton Presbyterian Manor announces a non-direct resident care employee has tested positive for the virus. The employee last worked on July 27. The health department has been notified and surveillance testing will continue.

**July 29, 2021** – Arkansas City Presbyterian Manor announces an independent living resident has tested positive for the virus. The resident will recuperate in their residence. The health department has been notified.

**July 29, 2021** – Clay Center Presbyterian Manor announces an essential health care worker has tested positive for the virus. The employee last worked on July 25. The health department has been notified and surveillance testing will continue.

**July 23, 2021** – Lawrence Presbyterian Manor announces a non-direct resident care contractor has tested positive for the virus. The contractor last worked on July 16. As a result of the case, the health department has suspended indoor and outdoor visitation for assisted living and memory care until the results of the next round of surveillance testing are completed.

**July 23, 2021** – Manor of the Plains announces two residents have tested positive for the virus. These are the first cases since April. The residents will recuperate in the COVID-19 isolation area, cared for by designated employees. The health department has been notified.

**July 23, 2021** – Salina Presbyterian Manor reports an essential health care worker has tested positive for the virus. The employee last worked on July 20. The health department has been notified and surveillance testing will continue.

**July 23, 2021** – Parsons Presbyterian Manor reports a contract health care worker has tested positive for the virus. The contract employee last worked on July 1. The health department has been notified and surveillance testing will continue.

**June 25, 2021** – Topeka Presbyterian Manor reports an assisted living resident and three essential health care employees have tested positive for the virus. The resident will recuperate in the COVID-19 isolation area, cared for by designated employees. The employees last worked on June 16, 17 and 21, respectively. The health department has been notified and surveillance testing will continue.

## PMMA (Presbyterian Manors of Mid-America) Response Timeline

**June 25, 2021** – Newton Presbyterian Manor reports a health care resident has tested positive for the virus. The resident will recuperate in the COVID-19 isolation area, cared for by designated employees. The health department has been notified.

**June 22, 2021** – Rolla Presbyterian Manor reports a contract health care employee has tested positive for the virus. The employee last worked on June 11. The health department has been notified and surveillance testing will continue.

**June 21, 2021** – Topeka Presbyterian Manor reports a contract health care employee has tested positive for the virus. The employee last worked on June 16. The health department has been notified and surveillance testing will continue.

**June 18, 2021** – Arkansas City Presbyterian Manor reports a non-direct resident care employee has tested positive for the virus. The employee last worked on June 14. The health department has been notified and surveillance testing will continue. Several residents were tested due to close contact, as well as another employee. All tests were negative.

**June 18, 2021** – Aberdeen Heights reports an essential health care worker has tested positive for the virus. The employee last worked on June 14. The health department has been notified and surveillance testing will continue.

**June 17, 2021** – Topeka Presbyterian Manor reports an assisted living resident has tested positive for the virus. The resident will recuperate in the COVID-19 isolation area, cared for by designated employees. The health department has been notified.

**June 14, 2021** – Topeka Presbyterian Manor reports an essential health care worker has tested positive for the virus. The employee last worked on June 10. The health department has been notified and surveillance testing will continue.

**June 6, 2021** – Wichita Presbyterian Manor reports one non-direct care resident employee and one third party contractor who provides direct resident care have tested positive for the virus. The employees last worked on May 29 and June 5, respectively. The health department has been notified. Several residents have been quarantined due to close contact. Surveillance testing will continue.

**May 28, 2021** – Farmington Presbyterian Manor reports a contract health care worker has tested positive for the virus. The employee last worked on May 25. The health department has been notified and surveillance testing will continue.

**April 23, 2021** – Rolla Presbyterian Manor reports an assisted living memory care resident has tested positive for the virus. The resident will recuperate in the COVID-19 isolation area, cared for by designated employees. The health department has been notified.

**April 22, 2021** – Aberdeen Heights reports a non-direct resident care employee has tested positive for the virus. The employee last worked on April 21. The health department has been notified and surveillance testing will continue.

## PMMA (Presbyterian Manors of Mid-America) Response Timeline

**April 20, 2021** – Newton Presbyterian Manor reports their first COVID case in two months, resulting from surveillance testing. One non-direct resident care employee tested positive for the virus. The employee last worked on April 17. The health department has been notified and surveillance testing will continue.

**April 16, 2021** – Rolla Presbyterian Manor reports one essential health care worker has tested positive for the virus. The employee last worked on April 14. The health department has been notified and surveillance testing will continue.

**April 7, 2021** – Manor of the Plains reports their first COVID case since December, resulting from surveillance testing. One non-direct resident care employee tested positive. The employee last worked on April 6. The health department has been notified and surveillance testing will continue.

**February 2, 2021** – Emporia Presbyterian Manor reports three health care residents tested positive for COVID-19. The Flint Hills Community Health Department has been notified. Testing for residents and employees will continue as the community continues to fight the outbreak.

**February 1, 2021** – Wichita Presbyterian Manor reported two of three employees placed in quarantine after exposure to another employee who tested positive for COVID-19 last week have tested positive for the virus. The health department was notified and testing continues at the campus.

**January 31, 2021** – Salina Presbyterian Manor reported one essential health care worker tested positive for COVID-19 after reporting signs and symptoms to a supervisor while working. The employee was sent home and the health department was notified. Testing continues for residents and staff.

**January 30, 2021** – Fort Scott Presbyterian Village reported one essential health care employee tested positive for COVID-19 with a rapid point-of-care (POC) test during pre-shift screening. The health department was notified and testing will continue as directed.

**January 30, 2021** – Salina Presbyterian Manor reported one health care resident tested positive for COVID-19 with a rapid point-of-care (POC) test. The resident was tested due to a previously reported exposure risk. Testing will continue for residents and staff.

**January 29, 2021** – Fort Scott Presbyterian Village reported two residents and two essential health care employees tested positive for COVID-19. The health department was notified and testing will continue for residents and staff as directed.

**January 28, 2021** – Clay Center Presbyterian Manor reports one recently admitted resident has tested positive for COVID-19. The resident, who was in isolation in accordance with new admission protocols, tested negative on January 21, January 22 and January 25. The resident was transferred to the emergency room January 28 for a medical evaluation and was administered another COVID-19 test, which was positive. The resident remained hospitalized.

**January 28, 2021** – Emporia Presbyterian Manor reported two health care residents tested positive for COVID-19 via rapid point-of-care (POC) tests. The Flint Hills Community Health Department has been notified. Testing for residents and employees will continue as the community continues to fight the outbreak.

**January 28, 2021** – Salina Presbyterian Manor had its second COVID-19 vaccine clinic for staff and residents. The campus is participating in the Pharmacy Partnership for Long-Term Care Program with CVS.

**January 27, 2021** – Emporia Presbyterian Manor reported four essential health care workers and four health care residents tested positive for COVID-19. The Flint Hills Community Health Department has been notified. Testing for residents and employees will continue as the community fights the outbreak.

**January 27, 2021** – Fort Scott Presbyterian Village reported another resident tested positive for COVID-19 with a rapid point-of-care (POC) test. The health department was notified and recommended administering standard tests to all residents to confirm diagnoses. Staff testing will continue.

**January 27, 2021** – Newton Presbyterian Manor reported three independent living residents living outside the main building tested positive for COVID-19. Two of the residents reported positive test results after exposure to a close contact who tested positive. The third resident tested positive after residents in that area of campus were offered the opportunity to be tested. The residents will recover in their residences until they meet health department guidelines for ending isolation.

**January 27, 2021** – Parsons Presbyterian Manor hosted its second COVID-19 vaccine clinic for residents and staff. The campus is participating in the Pharmacy Partnership for Long-Term Care with Walgreens.

**January 27, 2021** – Salina Presbyterian Manor reported one resident who previously tested positive for COVID-19 has died. In addition, two residents who had suspected contact with previously reported positive cases tested positive for COVID-19. The health department was notified and testing continues for residents and staff.

**January 27, 2021** – Wichita Presbyterian Manor reported one essential health care employee and one non-direct resident care employee tested positive for the virus January 25. Contact tracing identified three employees with possible exposure risk, who will quarantine as directed by the Sedgwick County Health Department as a precaution. Testing continues for employees and health care and PATH residents.

**January 26, 2021** – Aberdeen Heights hosted its first vaccine clinic for independent living residents and employees, with 225 people participating. The campus is participating in the Pharmacy Partnership for Long-Term Care Program with CVS.

**January 26, 2021** – Arkansas City Presbyterian Manor reports one memory care resident tested positive for COVID-19 January 25 after an employee tested positive the week prior. Memory care residents will be tested again February 1, and employee surveillance testing will continue as required.

**January 26, 2021** – Fort Scott Presbyterian Village reported five residents tested positive for COVID-19 after mass testing at the community. All residents were tested after two residents tested positive with rapid point-of-care tests. The health department was notified and recommended administering standard tests to all residents to confirm diagnoses. Staff testing will continue.

**January 25, 2021** – Aberdeen Village reports an essential health care worker has tested positive for the virus via rapid point-of-care (POC) testing. The Johnson County Health Department was notified. Mass testing will continue as required.

**January 25, 2021** – Fort Scott Presbyterian Village reported an essential health care worker tested positive for COVID-19. The Bourbon County Health department was notified and three residents with possible contact were quarantined per health department recommendations. Staff testing continues.

**January 25, 2021** – Salina Presbyterian Manor reported one health care resident and one essential health care worker have tested positive for COVID-19. The health department was notified and testing continues for staff and residents.

**January 23, 2021** – Newton Presbyterian Manor reported one non-direct resident care employee tested positive for COVID-19 via rapid point-of-care (POC) testing. The health department was notified. Employee surveillance testing will continue as required.

## PMMA (Presbyterian Manors of Mid-America) Response Timeline

**January 22, 2021** – Rolla Presbyterian Manor reported an independent living resident at the campus tested positive for COVID-19 after exhibiting signs and symptoms of the illness. The resident will self-quarantine in their residence. The Phelps County Health Department was notified and employee surveillance testing continues at the community.

**January 22, 2021** – Salina Presbyterian Manor reported one essential health care employee tested positive for COVID-19. In addition, two health care residents, who were tested due to exhibiting signs and symptoms of the virus, have tested positive.
