

App Store Connect Privacy Questions

FAQ

Beginning December 8, 2020, Apple will require you to fill out [Apple's Privacy Practices Questionnaire](#) in order to update your app. The questionnaire asks for information about your app's privacy practices, including any third-party SDKs you use, such as Mapbox.

Below is information about what Mapbox's iOS SDK collects; what your own app collects for your own purposes, and what other third-party SDKs you may use may collect, is likely to differ from the information below. Please use this information to inform your answers, but also carefully examine your other data collection practices and answer accordingly.

Mapbox may update these answers with new releases. You are solely responsible for updating your responses in App Store Connect.

1. Do you or your third-party partners collect data from this app? ("Collect" refers to transmitting data off the device in a way that allows you and/or your third-party partners to access it for a period longer than necessary to service the transmitted request in real time)

Yes

2. Contact Info

Name, email address, phone number, physical address, other user contact info (home or physical address)

No

3. Health & Fitness

No

4. Financial Info

Payment info (if payment info is entered outside the app and developer doesn't have access, then no), Credit info, other financial info (salary, income, assets, debts, or other financial info)

No

5. Location

Precise location (lat/long of 3 or more decimal places), coarse location

Yes - [Coarse location, Precise location] - App functionality, Product personalization, Analytics

As the app developer, you have the choice to use either coarse location or precise location. The data Mapbox receives will match your selections. Many Mapbox features (such as directions or local search) will not work correctly or will return less accurate results without precise location.

6. Sensitive info

Racial or ethnic data, sexual orientation, pregnancy or childbirth, disability, religious or philosophical beliefs, trade union membership, political opinion, genetic info, biometric data

No

7. Contacts

List of contacts in user's phone, address book, or social graph

No

8. User Content

Emails or text messages, Photos or Videos, Audio Data, Gameplay content, Customer support, other user content, browsing history (not within app, such as websites browsed), search history (performed in app)

No

9. Identifiers

User ID (screen name, handle, account ID, assigned user ID, customer number, probabilistic identifier, or other user or account-level ID that can be used to identify a particular user or account), Device ID (device advertising identifier, or other device-level ID)

Yes - User ID - Analytics, app functionality

10. Purchases (An account or individual's purchases or purchase tendencies)

No

11. Usage data

Product Interaction, Advertising Data, Other Usage data

Yes - Product interaction - Analytics, app functionality

12. Diagnostics

Crash data, performance data (launch time, hang rate, energy use), other diagnostic data

Yes - Performance data - analytics, app functionality

13. Other data

Yes - Other data (e.g. device metadata features such as device type and operating system version) - analytics, app functionality

You may find Mapbox's privacy policy [here](#).
