

# News from CureGN

March 2021

## Introducing the Online CureGN Participant Dashboard

The CureGN Participant Dashboard was launched in 2021 in response to input from CureGN participants and their families. This dashboard provides a patient specific summary of health measures and a news feed that provides information about the CureGN study findings, invitations to CureGN events, etc.

From a patient or family care giver perspective, the dashboard provides graphs that show the trends of key health measures such as kidney function, urine protein and blood pressure over time.

Access to the dashboard is restricted to the patient or guardian, such as a parent for a minor patient. Invitations to access your personalized dashboard will be distributed by email. Please make sure your email is provided to your local CureGN study coordinator with a request for dashboard access.

## Collecting Information Directly from Patients through Text Messages

The research conducted by CureGN investigators has the best impact when founded on accurate, detailed information. Members of the CureGN Patient Advisory Council have recommended the collection of information more frequently than the scheduled study visits. Based on patient recommendations, the CureGN study launched monthly texts to collect answers to a few questions related to kidney disease related events that occur between CureGN study visits.

### Getting started:

Please consent to CureGN text messaging. Then provide your text-enabled cell phone number and preferences for day and time to receive the text messages to your CureGN study coordinator.

### Going on vacation?

The text messages can be paused if you are going on vacation. Please let your local coordinator know of the vacation start and end date if you wish to pause the text messaging during vacations.

## Be in the know about CureGN

**Monday, April 19, 2021  
or  
Thursday, April 29, 2021**

**Time: 6:30-8:00 PM ET**

**Please join online via Zoom:  
<https://umich.zoom.us/j/94529555820>**

**Or by phone: +1 312 626 6799**

**Meeting ID number: 945 2955 5820**

**RSVP: [RSVP online](#)**

**If you cannot RSVP online, please  
contact your study coordinator to let  
them know.**

CureGN investigators will be hosting a Fireside Chat with patient and family members of the CureGN Community. Please join in to hear about some of the CureGN discoveries, learn about study related updates and to provide your input.
